4.0	Visual Identity	28
5.0	Digital Identity	52
6.0	Glossary	67
7.0	Contact	68

1

- 1.1 Welcome 04
- 1.2 Proposition 05
- 1.3 Mission 06
- 1.4 Tone of Voice 07
- 1.5 Writing Style 08
- 1.6 Brand Story 09

Welcome to our brand guidelines. These guidelines will take you through a number of core design elements that come together to form a brand design system that is easy-to-use and inspiring.

Please adhere to the system outlined in this guide to create a brand image that is consistent wherever it is used.

Work in progress.

Work in progress.

Work in progress.

Work in progress.

Work in progress.

2

- 2.1 **Brandmarque Metrics** 11
- 2.2 **Minimum Clear Space** 13
- 2.3 **Minimum Sizes** 15
- 2.4 **Logo Applications** 16
- 2.5 **Incorrect Usage** 17
- 2.6 **Brand Architecture** 18

2.1

Brandmarque Metrics — Primary Lock

The logo has two elements – the icon and the namegraphic.

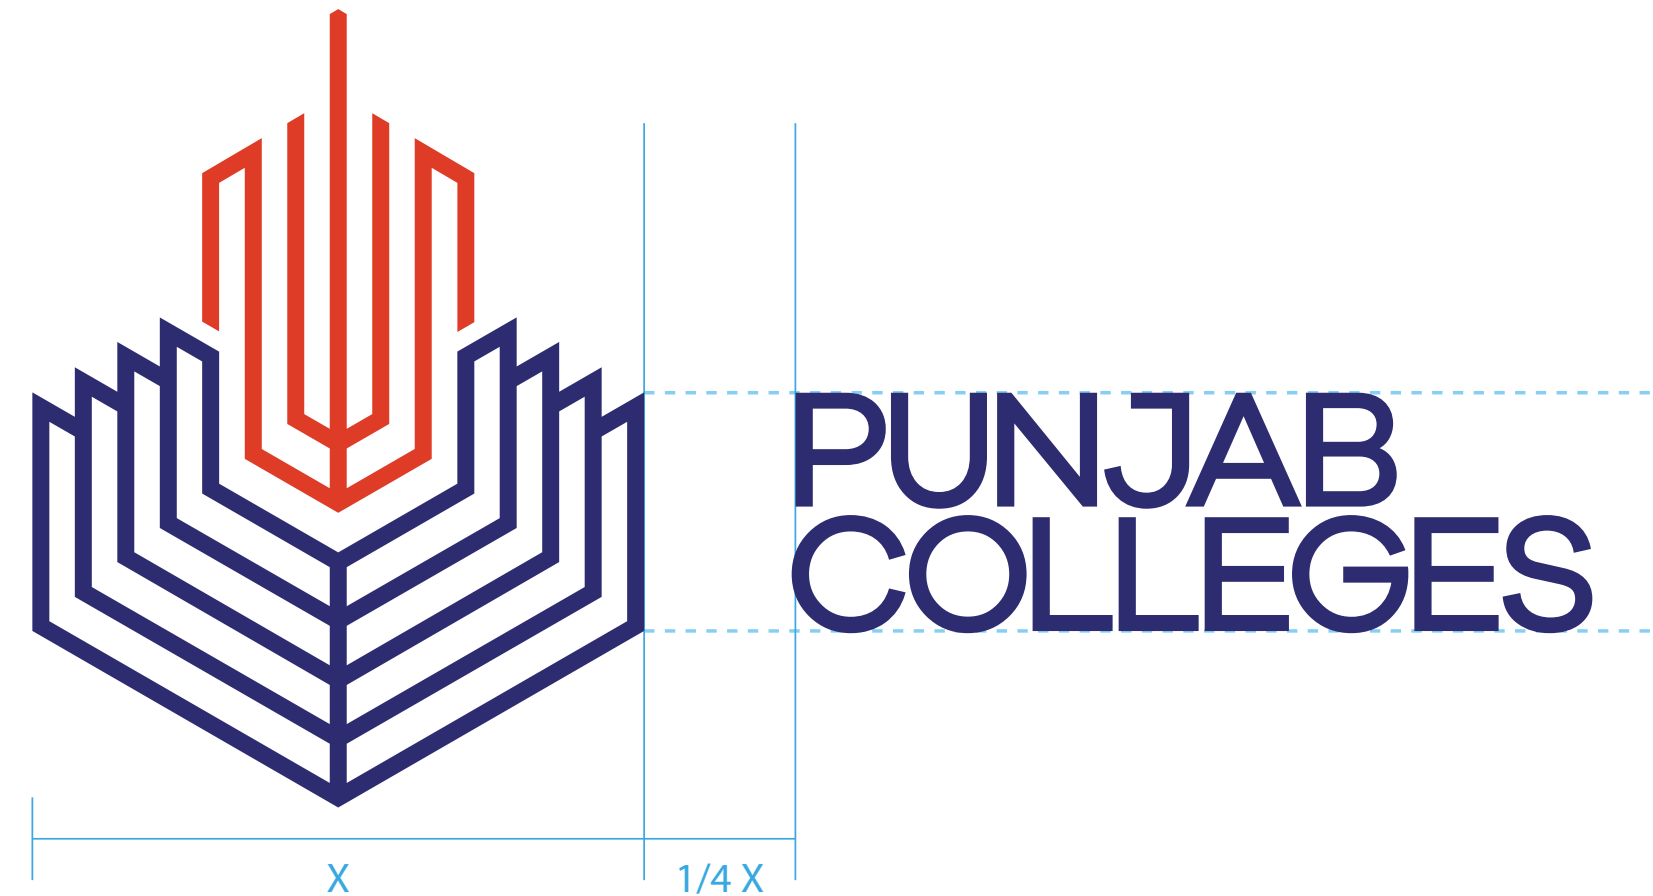

Big or small, our logo should be instantly recognisable everywhere we use it. This is why the logo never changes. Never alter the logo in anyway.

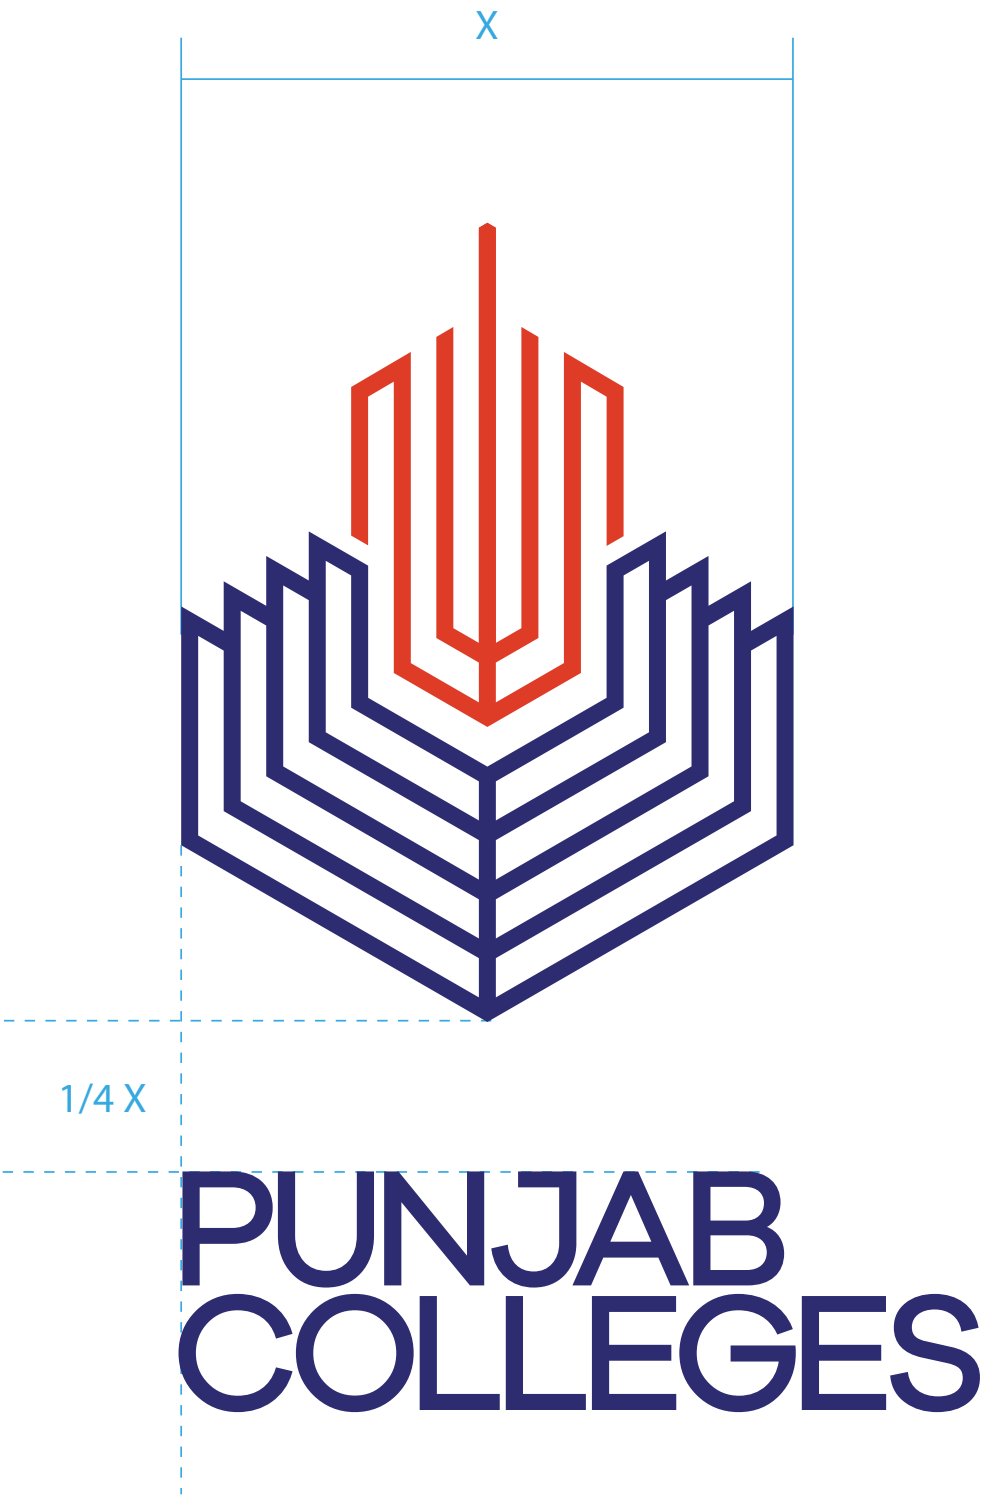

NOTE:

The icon must be used as part of the logo in all communications. The icon alone can be used on merchandise and social media platforms: Facebook, Twitter, Instagram and YouTube.

General Notes

The dimensions and spacing of the logo have been carefully designed to look optically right. The spacing shown here is a unit derived from the width of "Icon" where Icon = X.

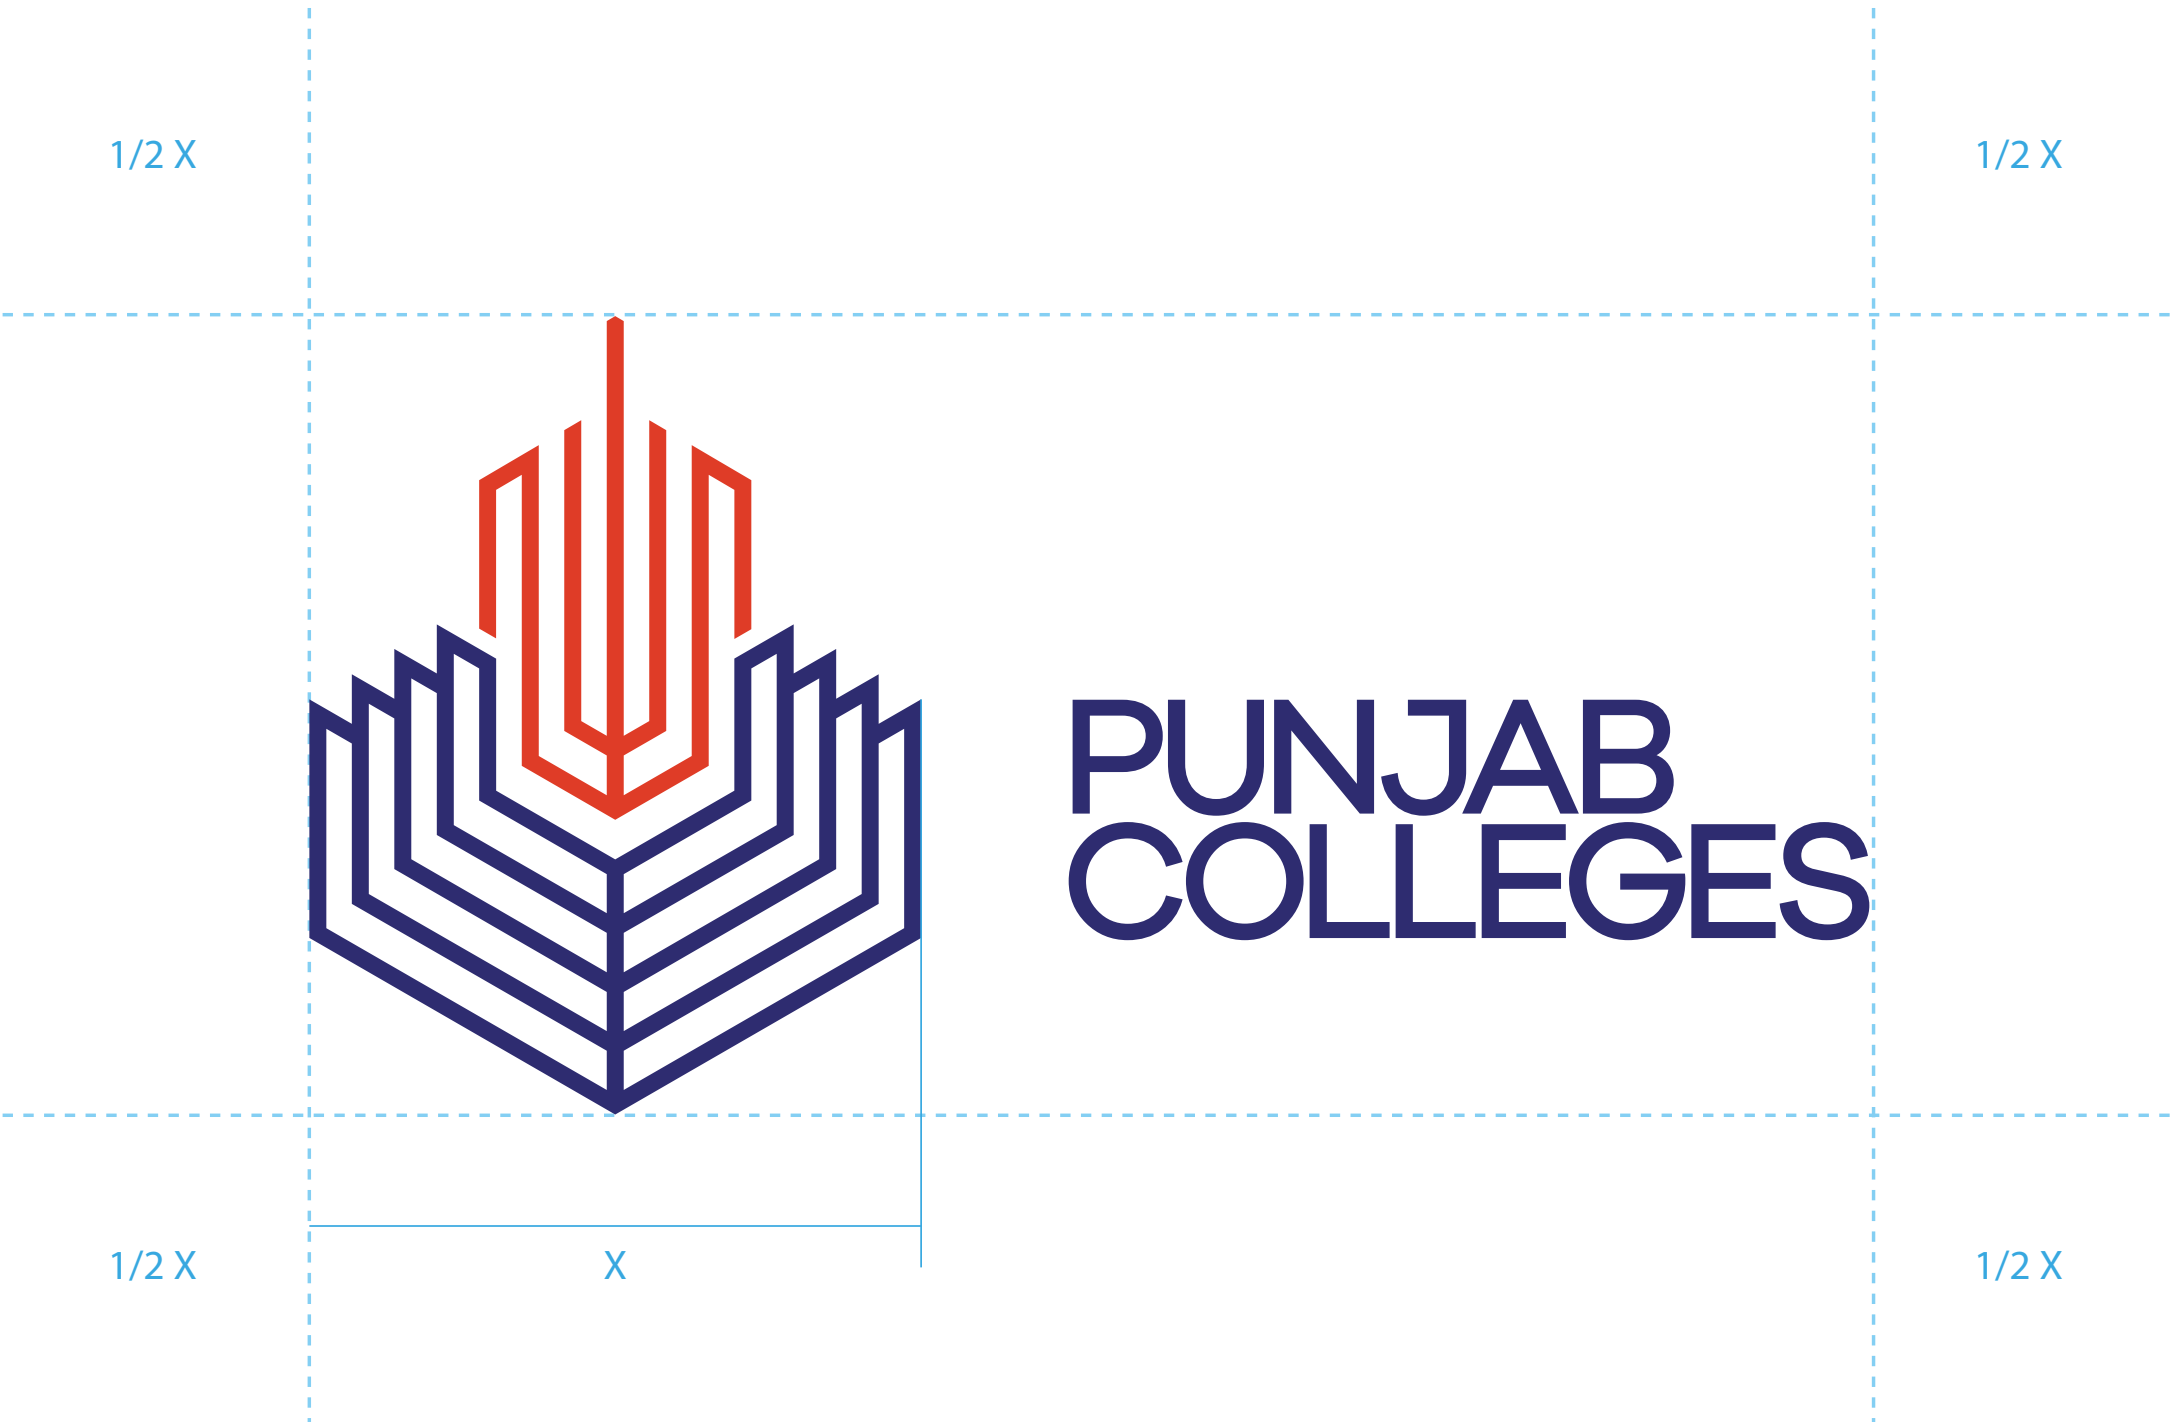

2.2

Minimum Clear Space — Primary Lock

We respect the logo by giving it some space. To preserve the integrity and visual impact of the logo, always maintain minimum clear space around it.

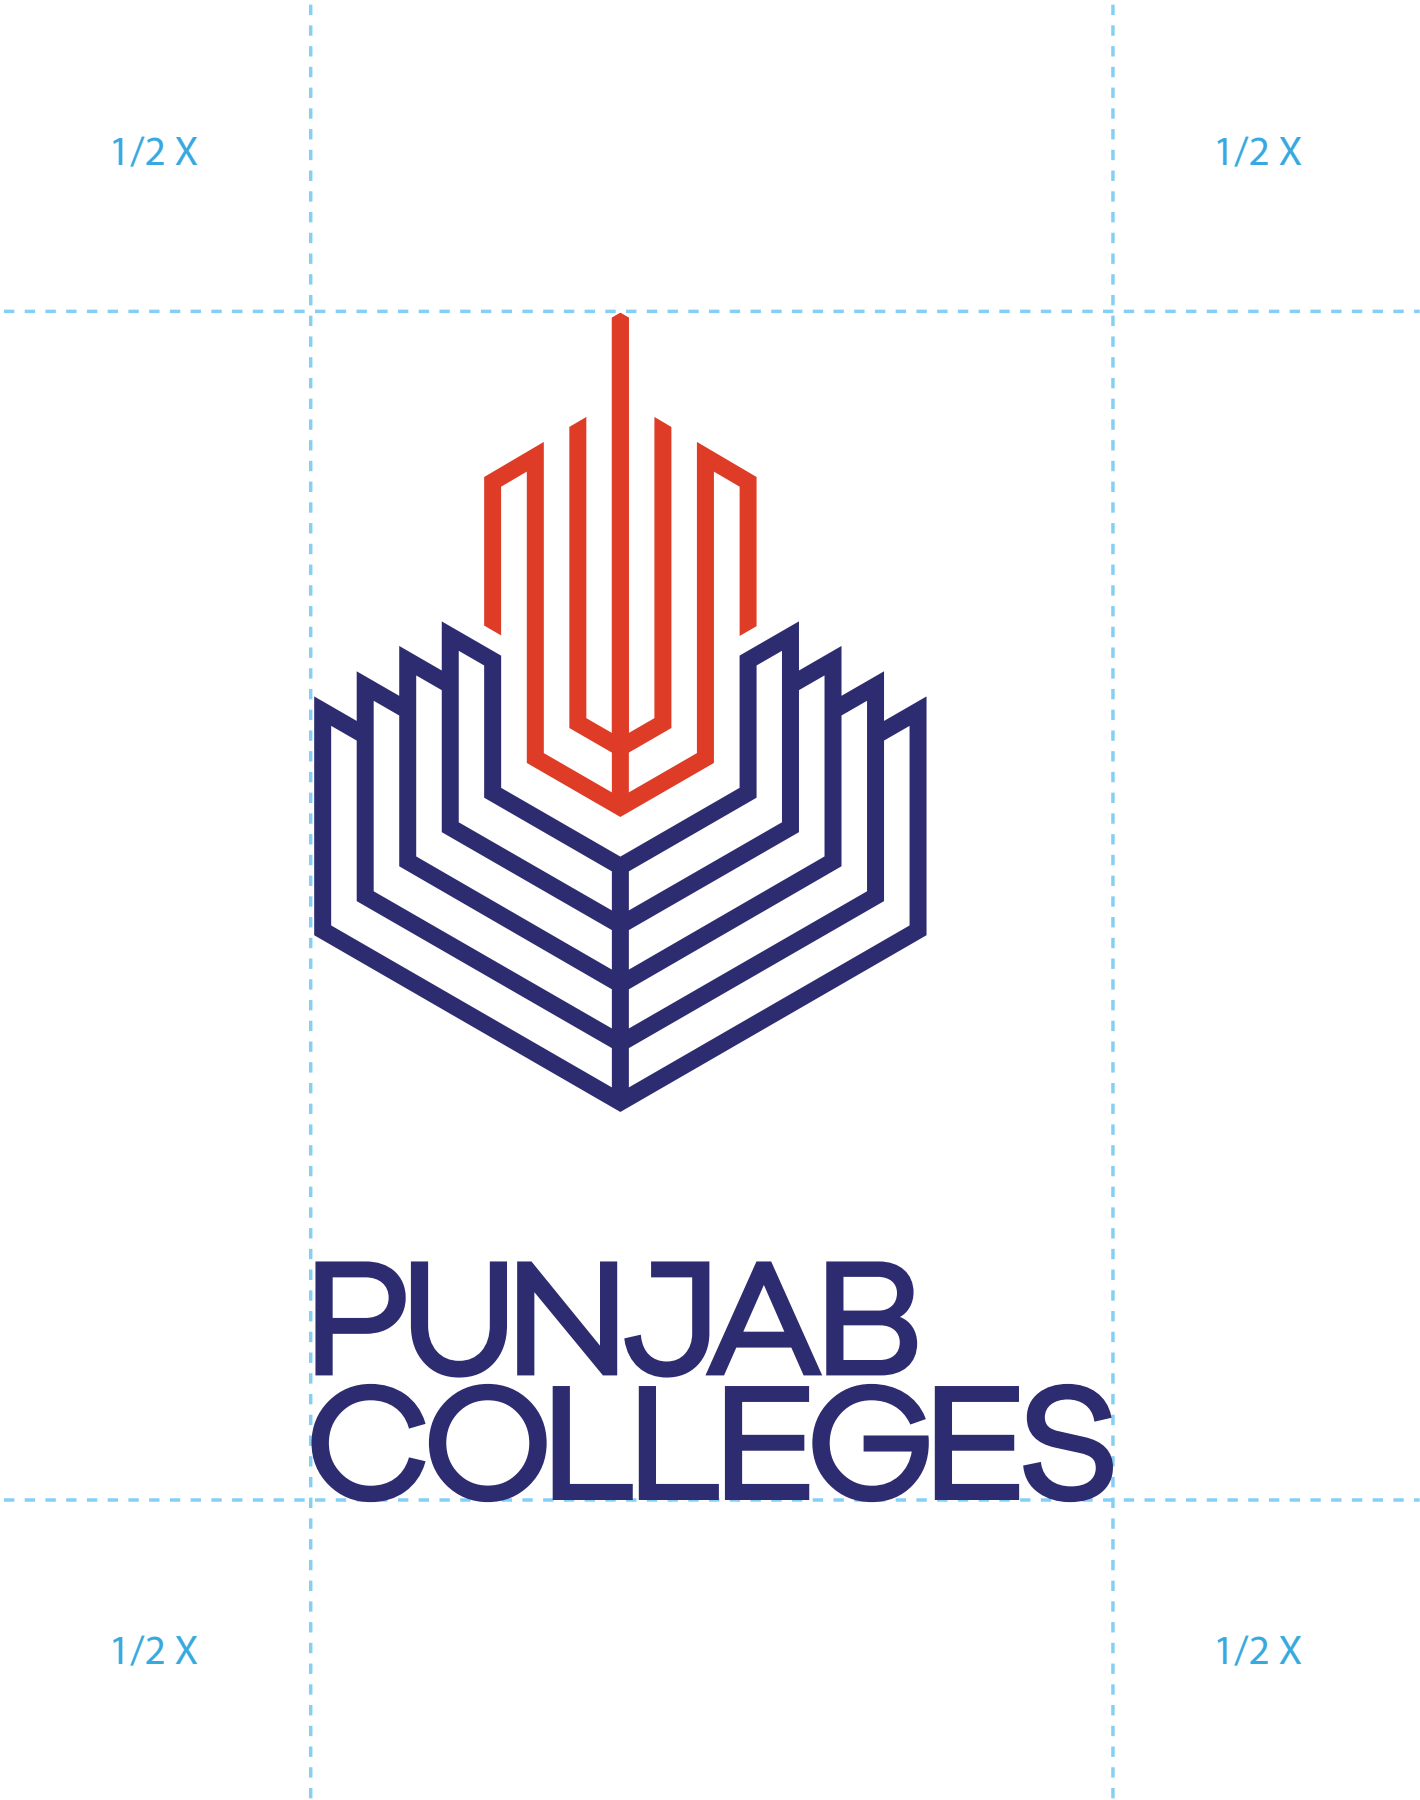

General Notes

The minimum clear space that must surround the logo is 1/2 x, where lcon = X.

2.2

Minimum Clear Space — Secondary Lock

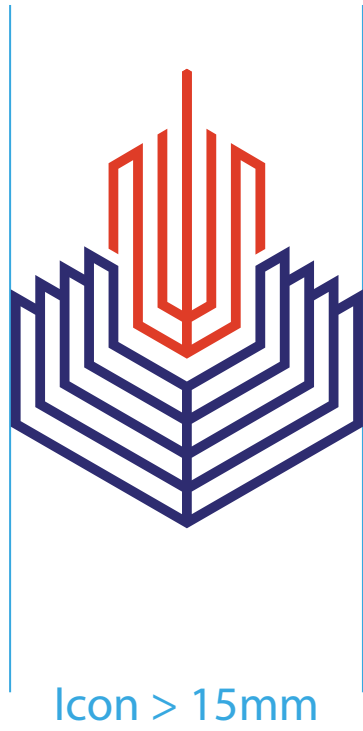

Minimum Sizes

Sizes are to be used as a guide whenever the identity is applied on various applications.

The key message of individual applications must be taken into account and designer discretion may be used to override these sizing guidelines.

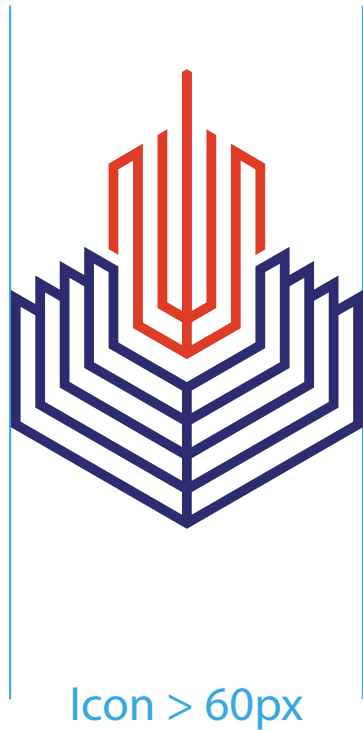

For Print

The logo should never be reproduced in a width smaller than 30mm. Similarly, the Icon should never be reproduced in a width smaller than 15mm.

For Digital

The logo should never be reproduced in a width smaller than 100px at 72dpi. Similarly, the Icon should never be reproduced in a width smaller than 60 px at 72dpi.

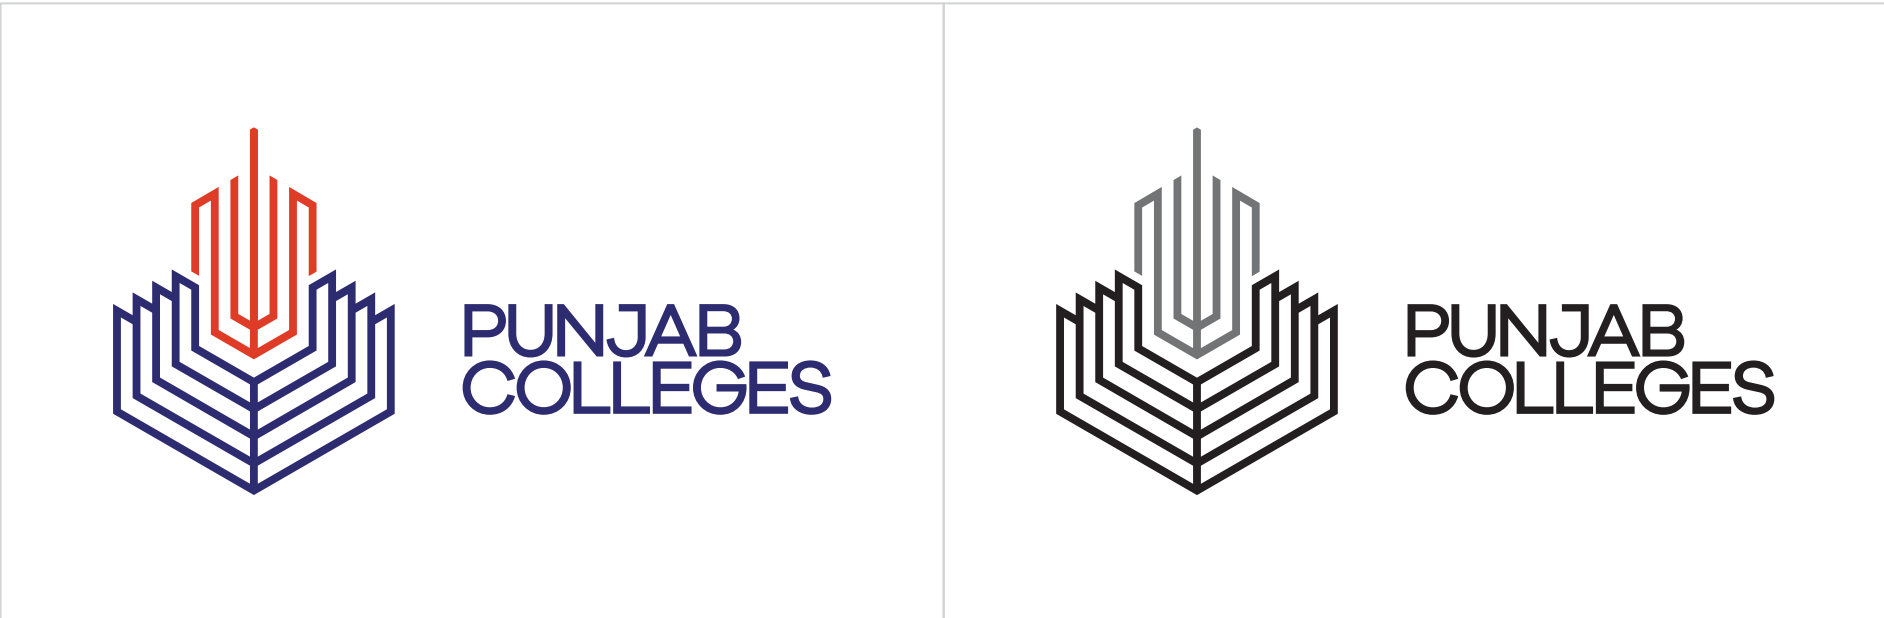

2.4

Logo Applications

Our logo is equally adaptive to a variety of backgrounds with either positive or reverse applications.

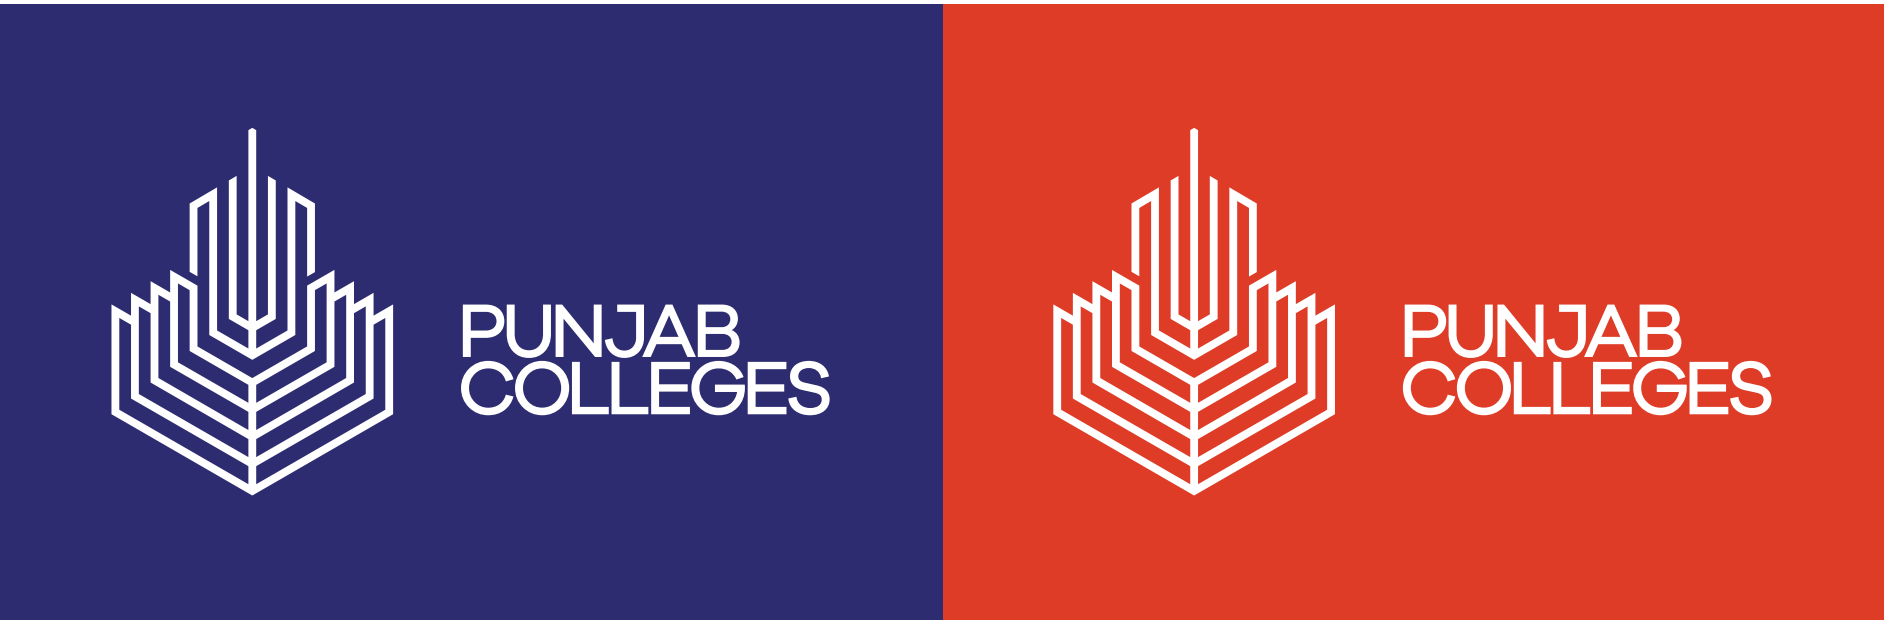

Positive Variations

Use the positive application on light backgrounds.

Reverse Variations

Use the reverse application on dark backgrounds.

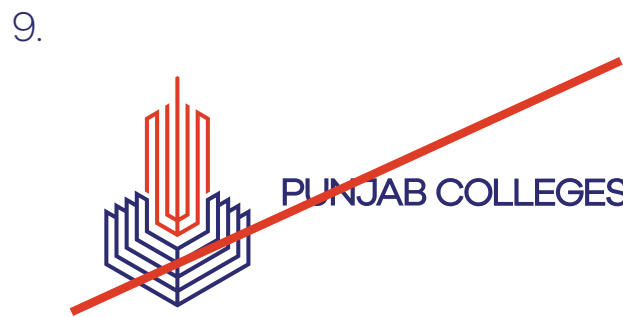

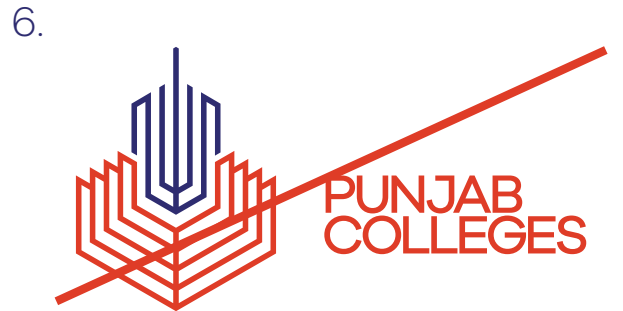

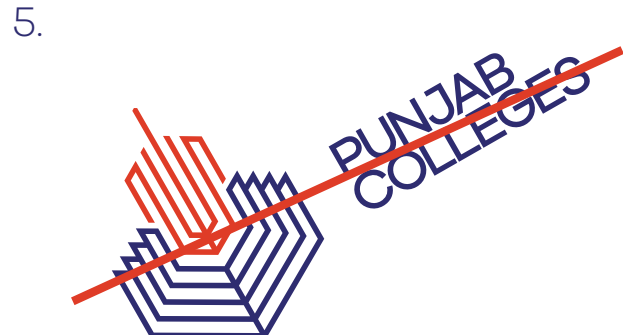

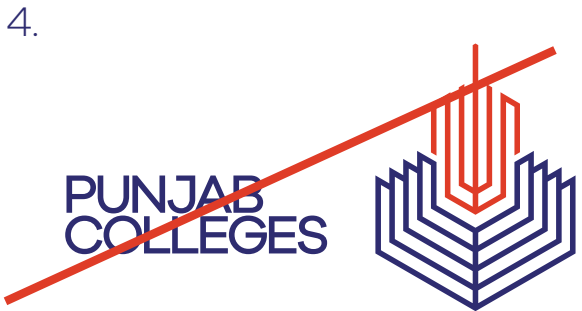

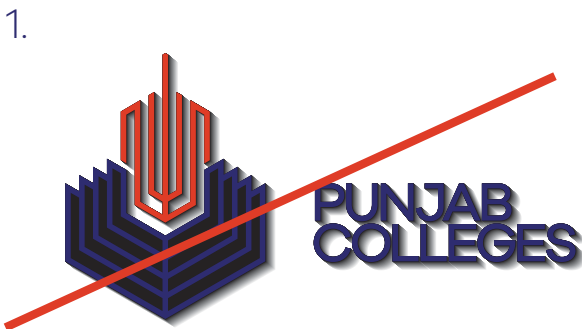

Incorrect Usage

Incorrect use of the logo compromises its integrity and effectiveness. Our logo is dynamic and flexible; however, incorrect usage must be avoided at all costs.

Logo Don'ts

- 1. Don't add effects (glows, shadows, etc.) to the logo.
- 2. Don't create an outline around the logo.
- 3. Don't skew the logo.
- 4. Don't rearrange the components of the logo.
- 5. Don't rotate the logo.
- 6. Don't alter the logo colors.
- 7. Don't stretch or squeeze the logo.
- 8. Don't fill in gradients.
- 9. Don't experiment with the logo.

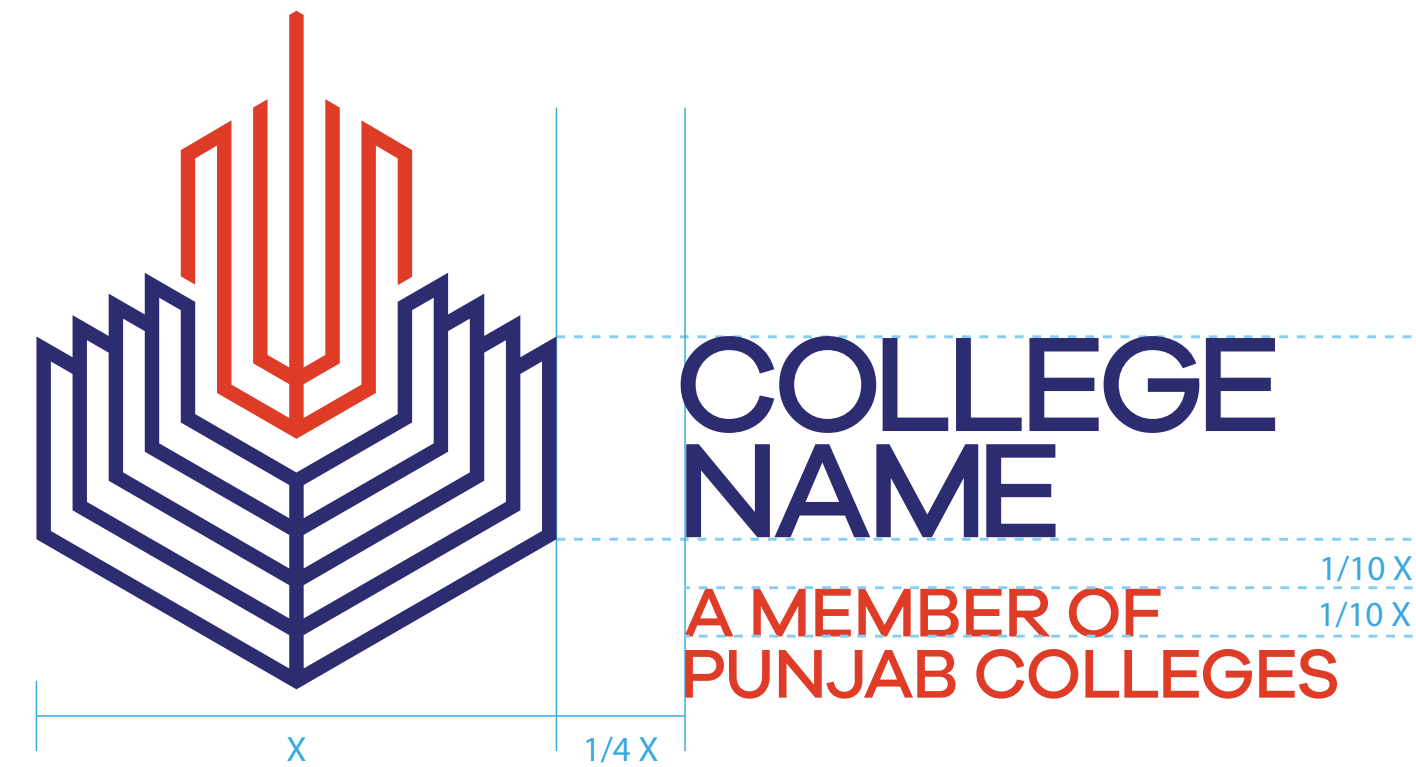

Brandmarque
Architecture

The brandmarque architecture gives structure and element to the brand. By precisely following the grid, we place different categories of the brand, beneath the logo to create a cohesive effect.

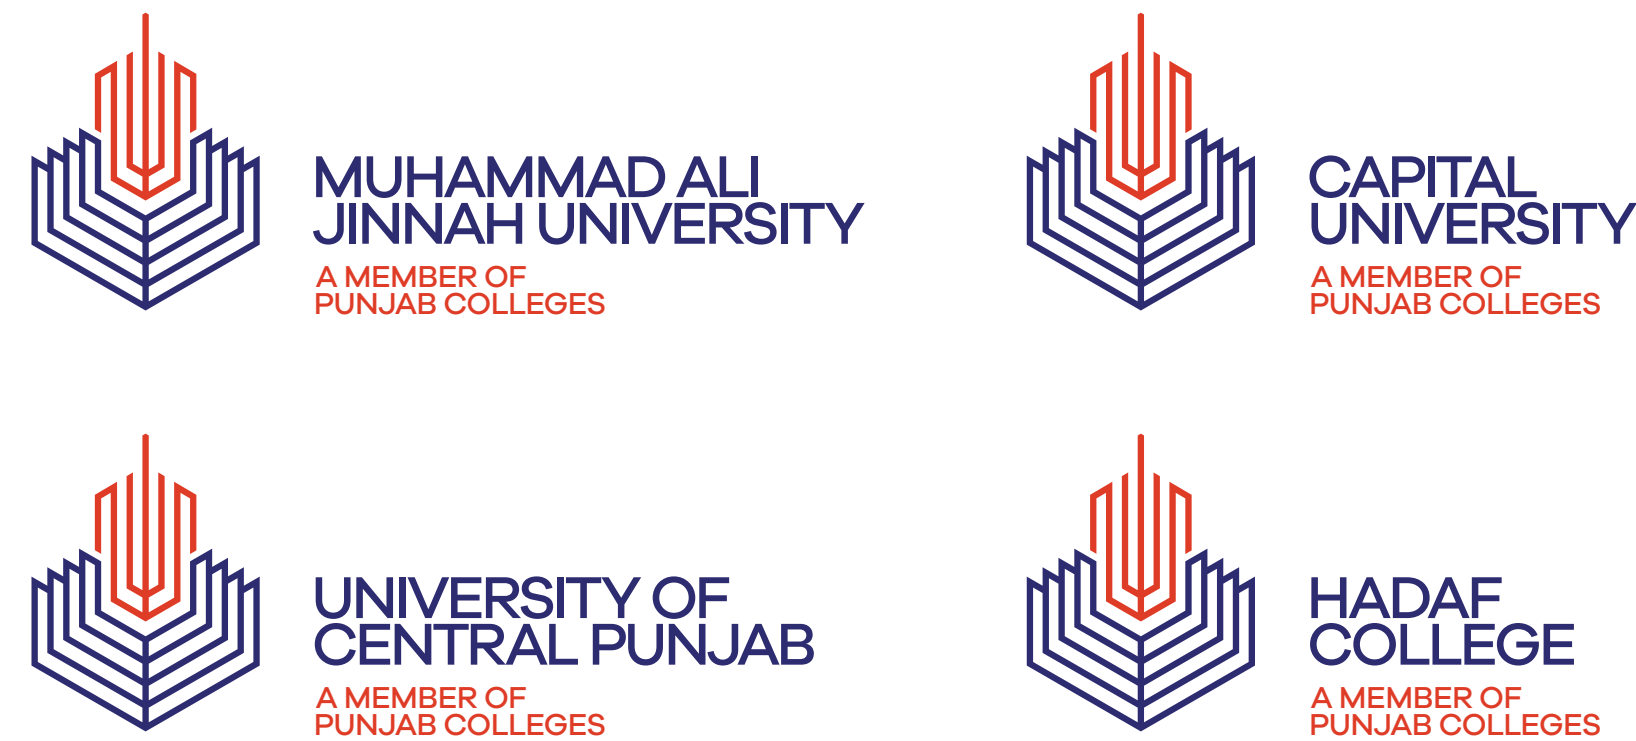

General Notes

The examples demonstrate the different ways to combine the logo with various sub-categories of the brand.

Architecture — Example

These sub-categories do not alter the Punjab Colleges icon and have been customized with a carefully type set that supports the brand.

3

- 3.1 **Business Card** 20
- 3.2 **Letterheads** 21
- 3.3 **Continuation Sheet** 25
- 3.4 **Envelopes** 26

Business Card

The stationery suite is a simple and clean communication of the brand identity. Always use the approved artwork templates provided and never alter or recreate the template.

NOTE:
All digital templates are available from The D’Hamidi Partnership.

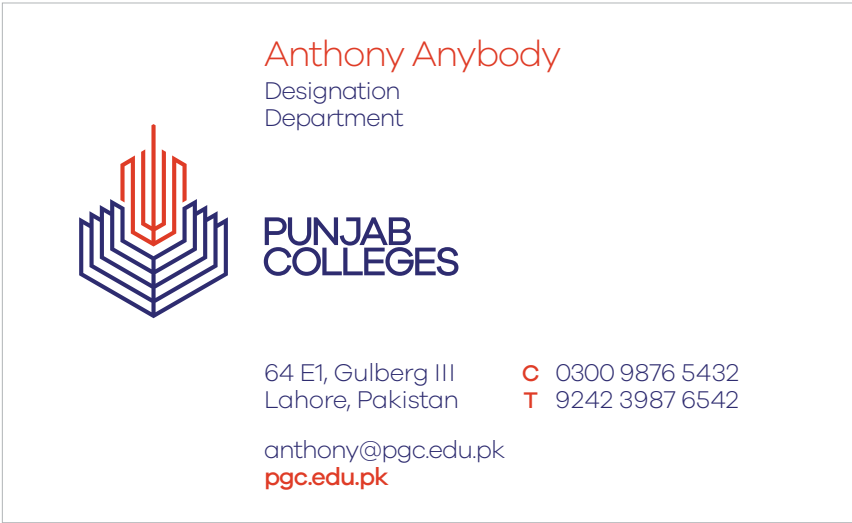

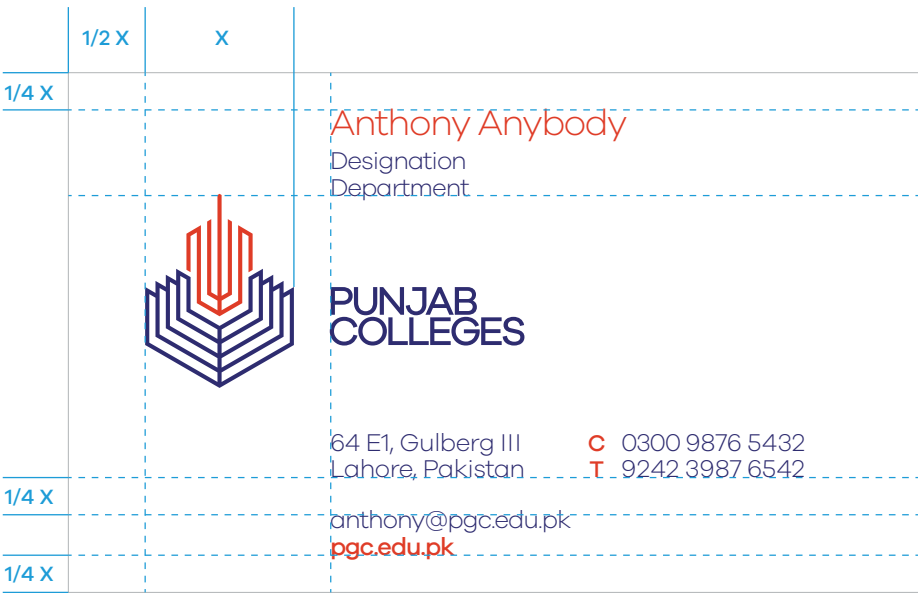

General Notes

Corporate Business Cards (90x55mm).

Place all elements in their specified areas.

Type Specs.

Galano Grotesque R8; Left-aligned.
Galano Grotesque R2; Left-aligned.

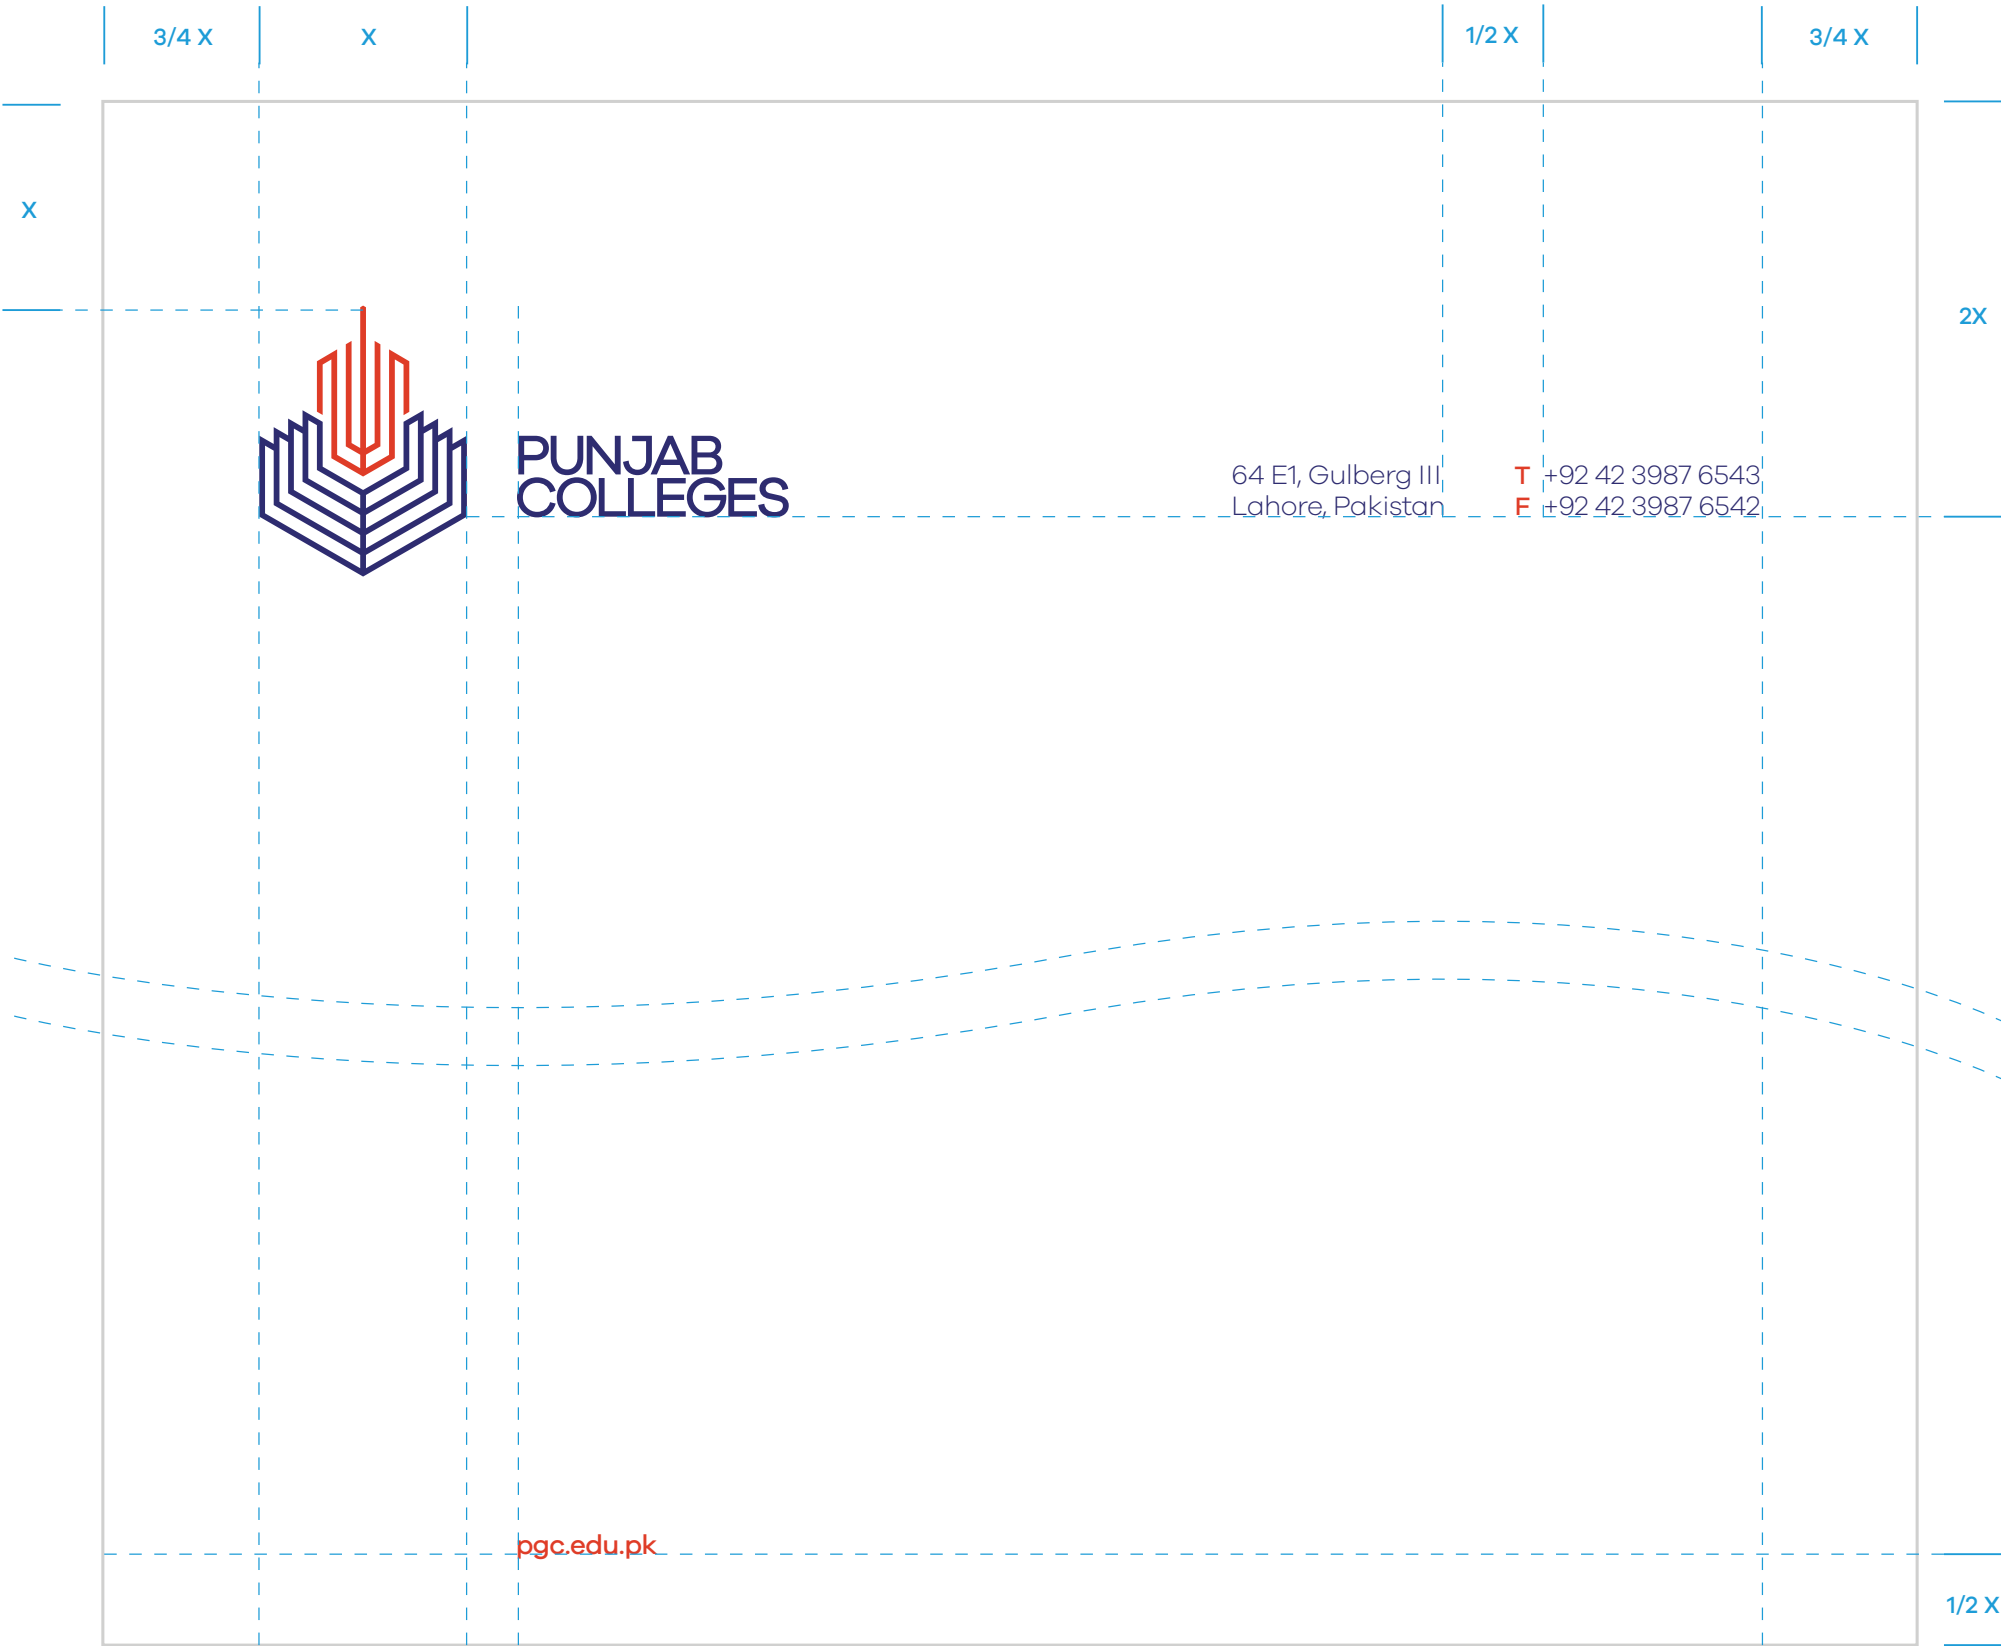

Corporate Letterhead

General Notes

A4 Letterhead (210x297mm).
Place all elements in their
specified areas.

Type Specs.

Galano Grotesque R8; Left-aligned.
Galano Grotesque R2; Left-aligned.

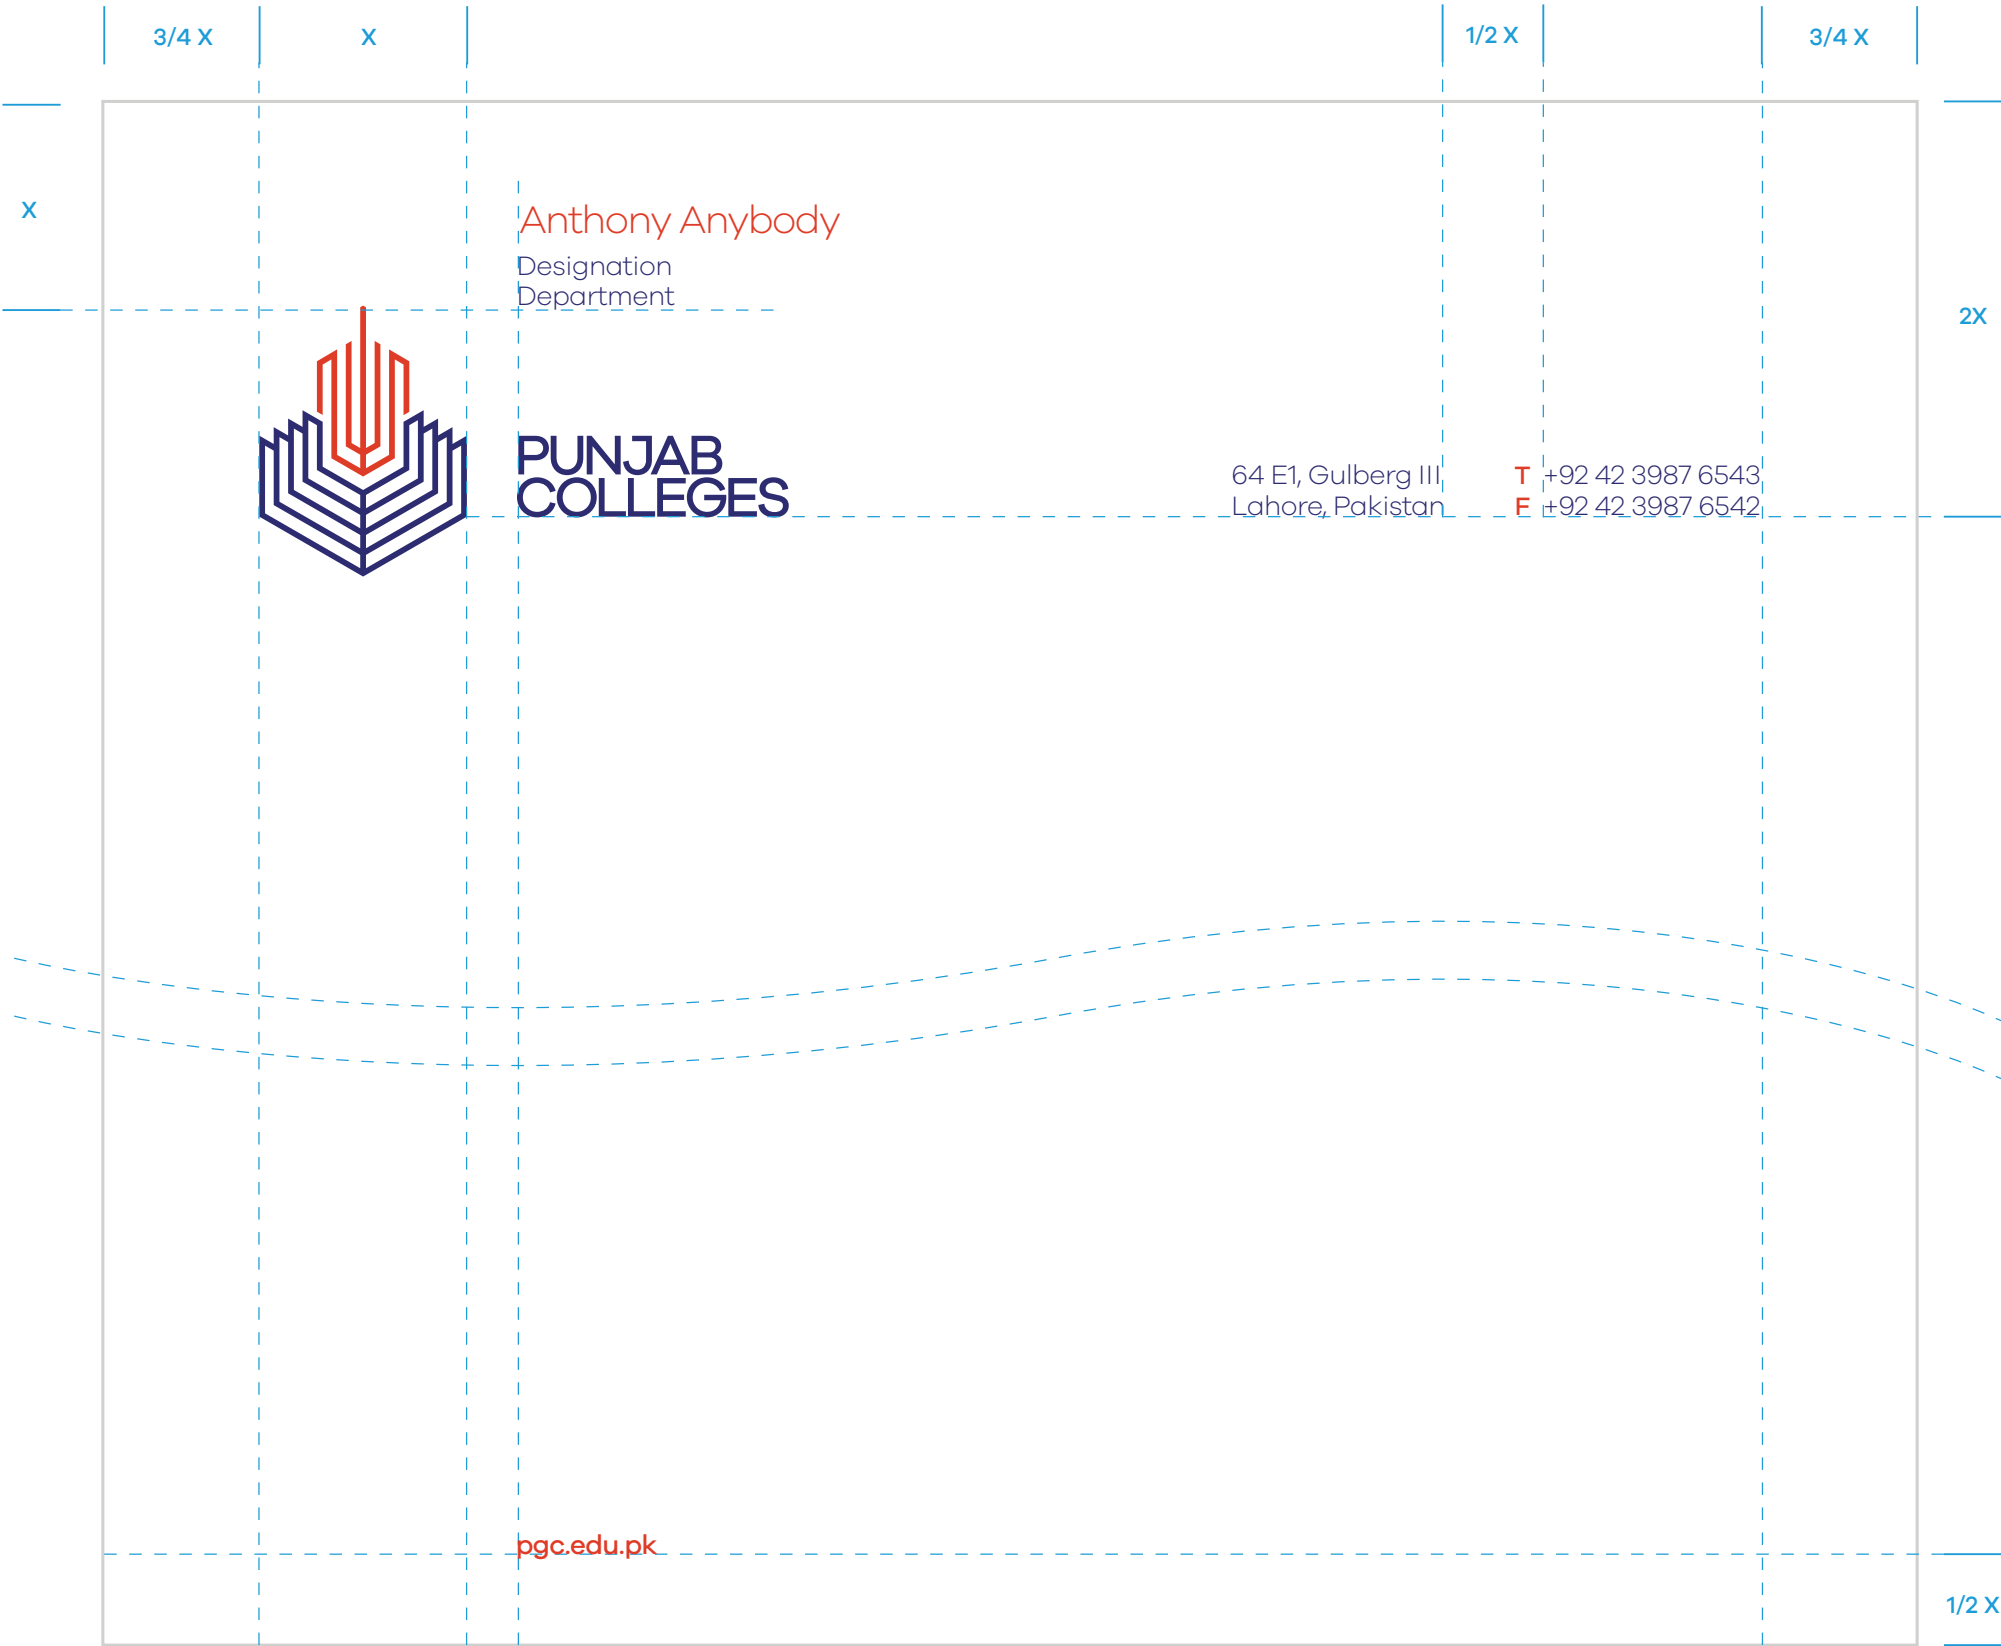

Personalized Letterhead

General Notes

A4 Letterhead (210x297mm).
Place all elements in their
specified areas.

	PUNJAB COLLEGES 64 E1, Gulberg III Lahore, Pakistan T +92 42 3987 6543 F +92 42 3987 6542	99
Name of Addressee Designation or Title Suite 000, Name of Building Any Street, City, Country 00 Month 2020		
Dear Sir: Sub: How to write a perfect letter. Our secondary font is Palatino used for long text. This is Palatino Regular 11 points over 14 leading. Always place the date on the 99mm mark. That would be the first fold when the letter is folded to fit in a standard 9x4 envelope (DL). By doing this, letters appear professional, balanced and thoughtful. Leave one line space for paragraphs. But leave two line spaces between letter elements. In other words, leave two line spaces before and after the date. Notice how the right edge of the letter is not justified. Leave it ragged so that no 'rivers' appear in your copy. And vertically align the right margin 30mm from the edge. When you close, leave as much space as your signature demands. Your signature must be the crescendo in your letter. Do not give the feeling that it is cramped or ill-fitted. You would require 4-6 line spaces for effective signature impact.		
Your full name (and the subject heading after the salutation) appear in bold. Courtesy, <i>Your A. Signature</i> Name of Sender Designation pgc.edu.pk

4

- 4.1 Color Palette 29
- 4.2 Typography 30
- 4.3 Photography 32
- 4.4 The Bands 37
- 4.5 Grid & Layout 40

Color Palette

The color palette consists of two primary colors. The consistent use of these colors will create recognition and strengthen the brand.

Primary Colors

The strongest impression of our brand comes from our primary color palette. Red and blue are the hero colors and lead our visual communication.

PANTONE
179 C

CMYK 08/92/98/00
RGB 223/60/39
#DF3C27

PANTONE
534 C

CMYK 100/100/25/10
RGB 45/43/111
#2D2B6F

Secondary Colors

The secondary palette supports the primary palette and gives our brand a greater visual flexibility. These colors should never replace the primary palette in designs and communications.

CMYK 00/23/100/00
RGB 255/198/00
#FFC600

CMYK 61/00/96/10
RGB 106/191/75
#6ABF4B

CMYK 19/67/60/03
RGB 199/108/97
#C76C61

CMYK 71/28/04/00
RGB 65/151/203
#4197CB

Typography

Type is more than just an element of design. It telecasts our message in a way that shows what we say by how we say it.

Our primary typeface is Galano Grotesque. It is a sans typeface that aims to be a universal weapon not only because it works great in headlines, short, and long copies but also because of its subtle neutrality.

NOTE:
Galano Grotesque is available to purchase from www.myfonts.com We recommend using the OpenType version.

Typeface - Galano Grotesque

The primary typeface for Punjab Colleges is Galano Grotesque. Galano Grotesque is a modern typeface that comes in a variety of weights and offers flexibility of use.

When to use

Internal designers and external creative vendors should use Galano Grotesque when producing branded materials and assets (e.g., posters, posts and brochures).

Aa Bb Cc Dd
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789!@#\$\$%&

Typeface - Gotham

Gotham is recommended for general office use and online applications. It is a contemporary and extremely versatile web-safe font, ensuring compatibility across a wide range of browsers.

When to use

Employees should use Gotham for day-to-day applications such as email, reports and presentations (in programs including Word, PowerPoint and Excel).

Aa Bb Cc Dd
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789!@#\$\$%&

Typography Hierarchy

We use different type of weights and sizes to create hierarchy in all communications.

Contrast should be created by means of typography: make sure headlines are as simple and short as possible.

Case

Use Uppercase for all display text. Use sentence case for all subhead and bodycopy.

1. Display Text

4. **CTA is typically of this size.**

5. Disclaimer is typically this size.

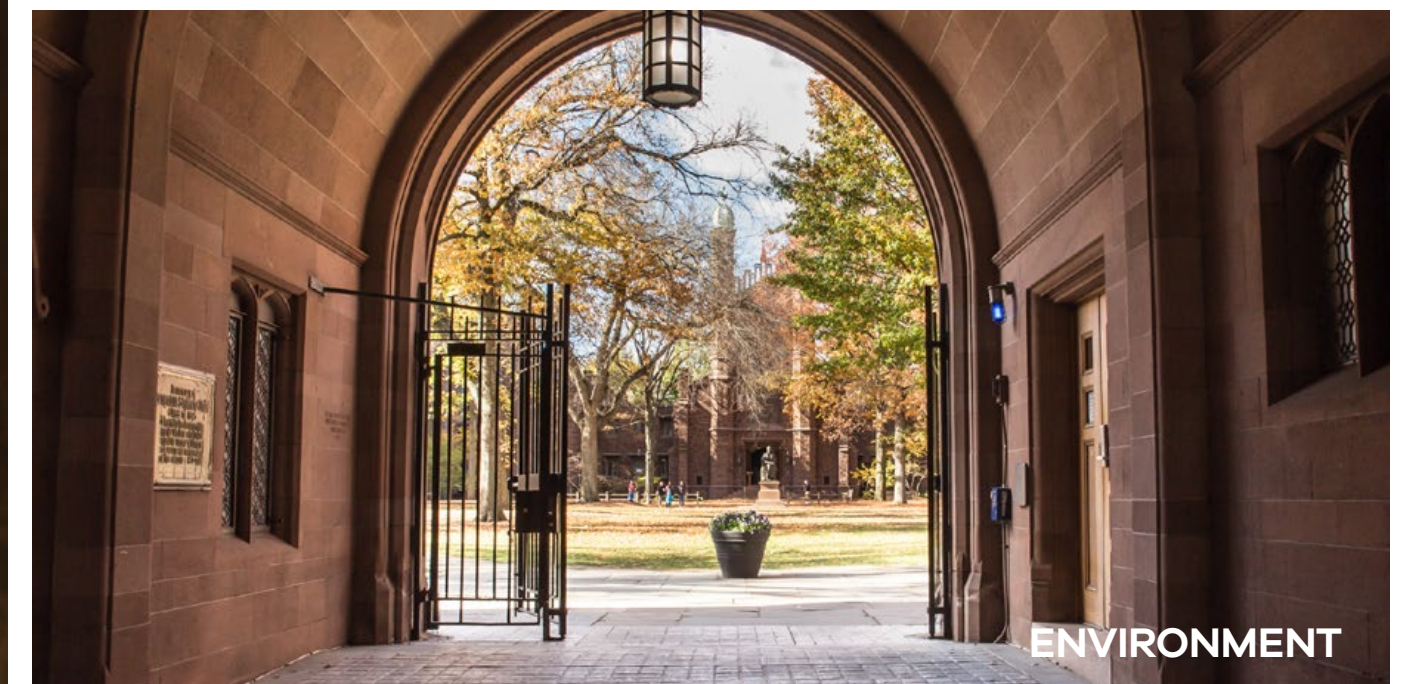

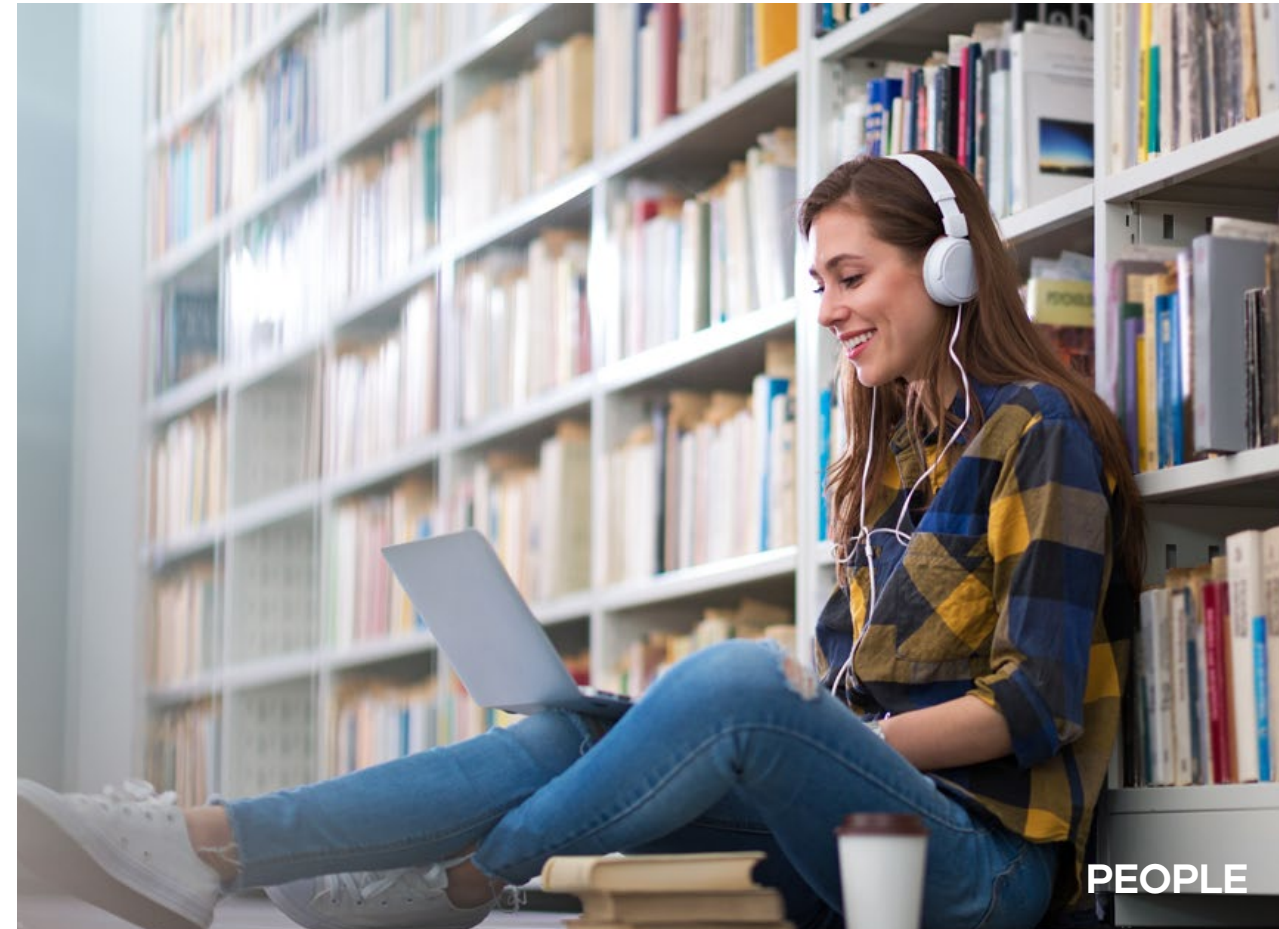

4.3

Photography

Photography is a primary element in all Punjab Colleges communications. We show what we do more than we talk about it. For this reason, we must always protect the high quality photography that's required for our brand. The information on the following pages will help guide your photographic decision making.

Photos are shot in an editorial style, using little or no camera lighting. A short depth of field draws attention to the subject in an intimate way. Photos are saturated slightly to add life and align with the color palette.

NOTE:
The photography shown in this document is for illustration purposes and placement only.

4.3

Photography — People

When we depict people at Punjab Colleges, we want the images to show how engaged the students are with their academic and social experience here. We also want viewers to see themselves in the setting, so shoot from an individual's perspective when possible. To authentically reflect our college, show our community in smaller groups instead of large crowds.

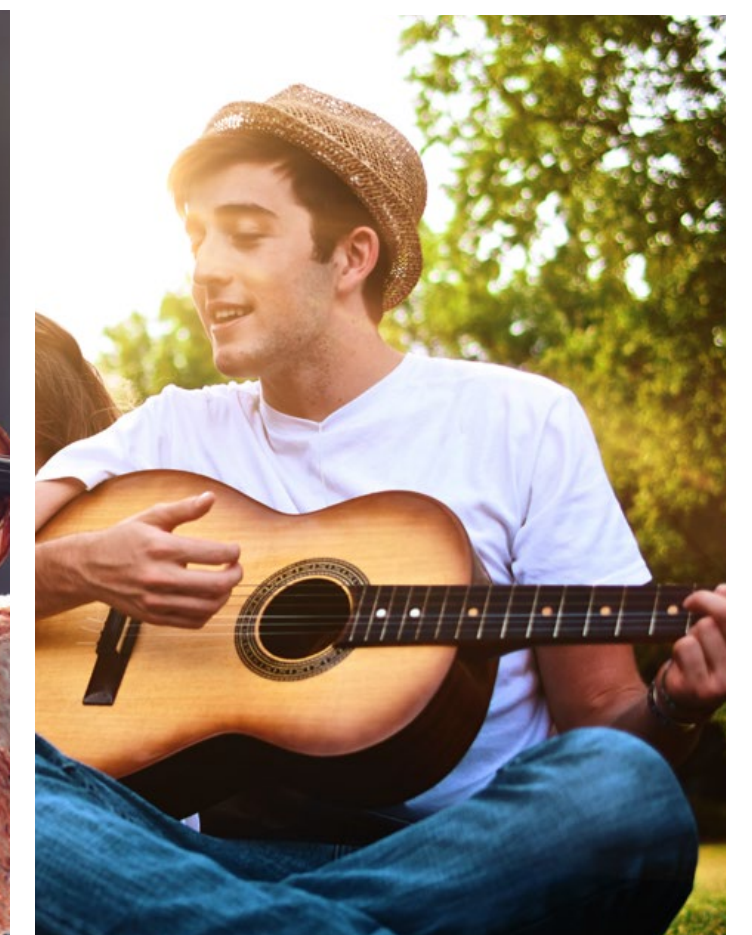

NOTE:
The photography shown in this document is for illustration purposes and placement only.

4.3

Photography — Sports & Activities

Sports and activities are a large part of what makes us Punjab Colleges. When illustrating these two areas, be sure to show how these moments and activities are experienced authentically.

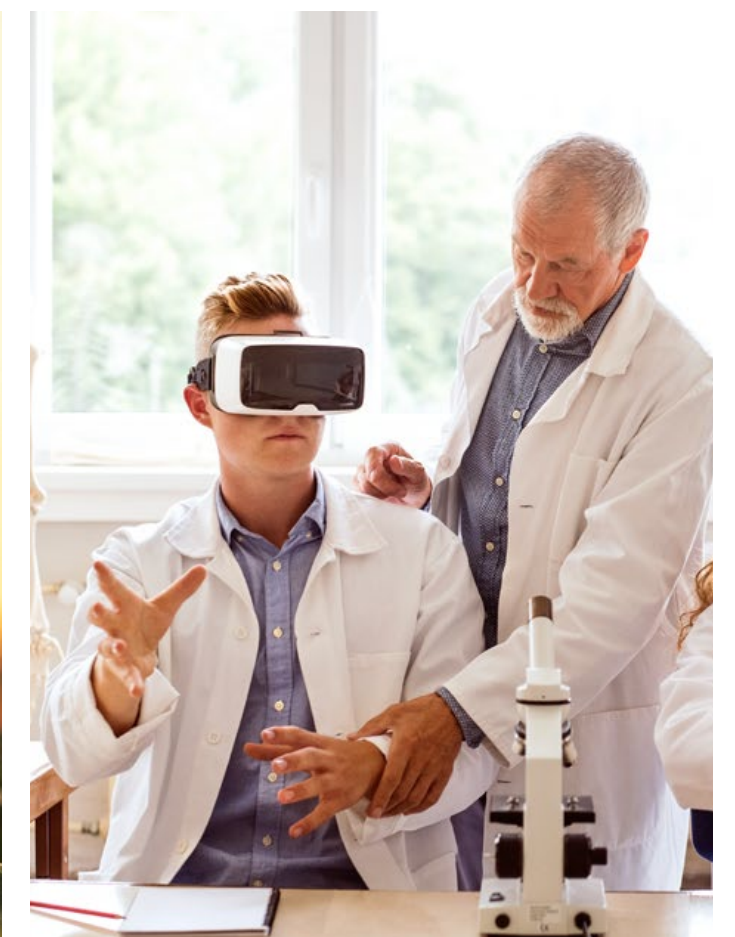

NOTE:
The photography shown in this document is for illustration purposes and placement only.

4.3

Photography — Academic

The academic experience at Punjab Colleges encourages students and their professors to interact. When we portray this experience, the images should go beyond shots of people studying to convey this sense of engagement. It's also important to show that sometimes learning happens outside of the classroom.

NOTE:
The photography shown in this document is for illustration purposes and placement only.

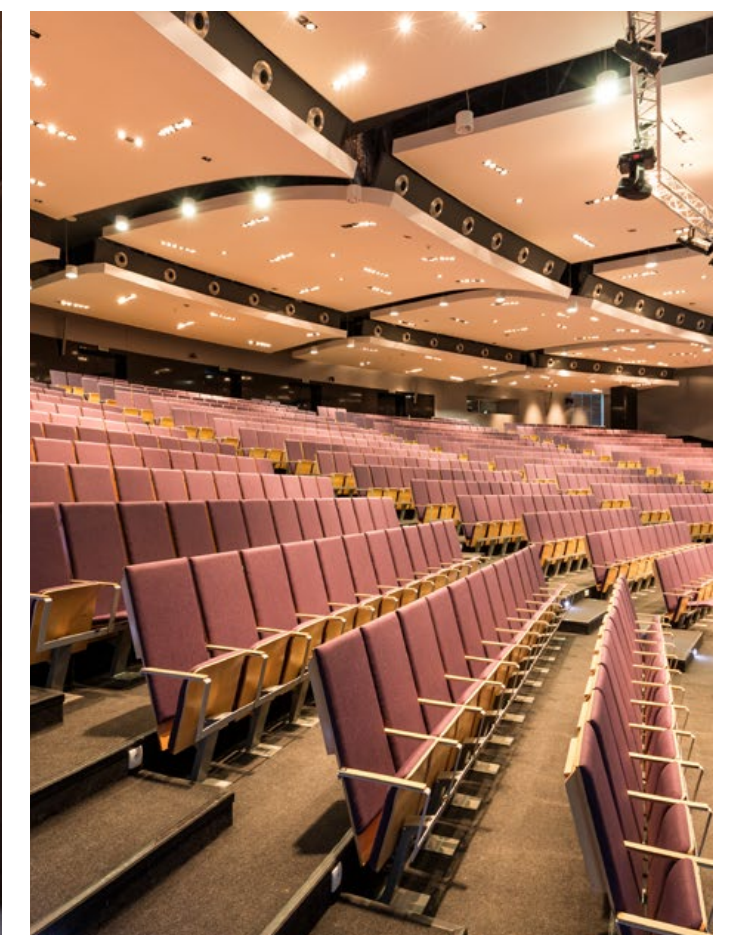

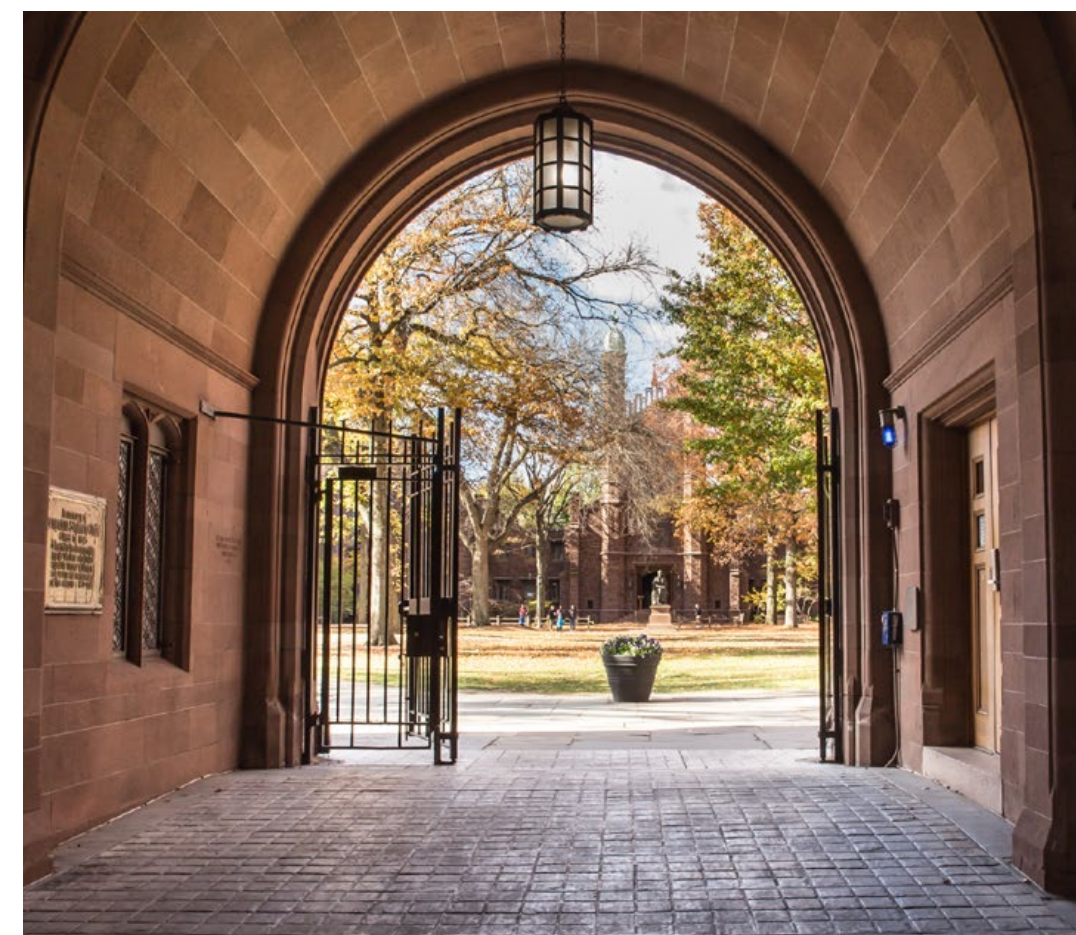

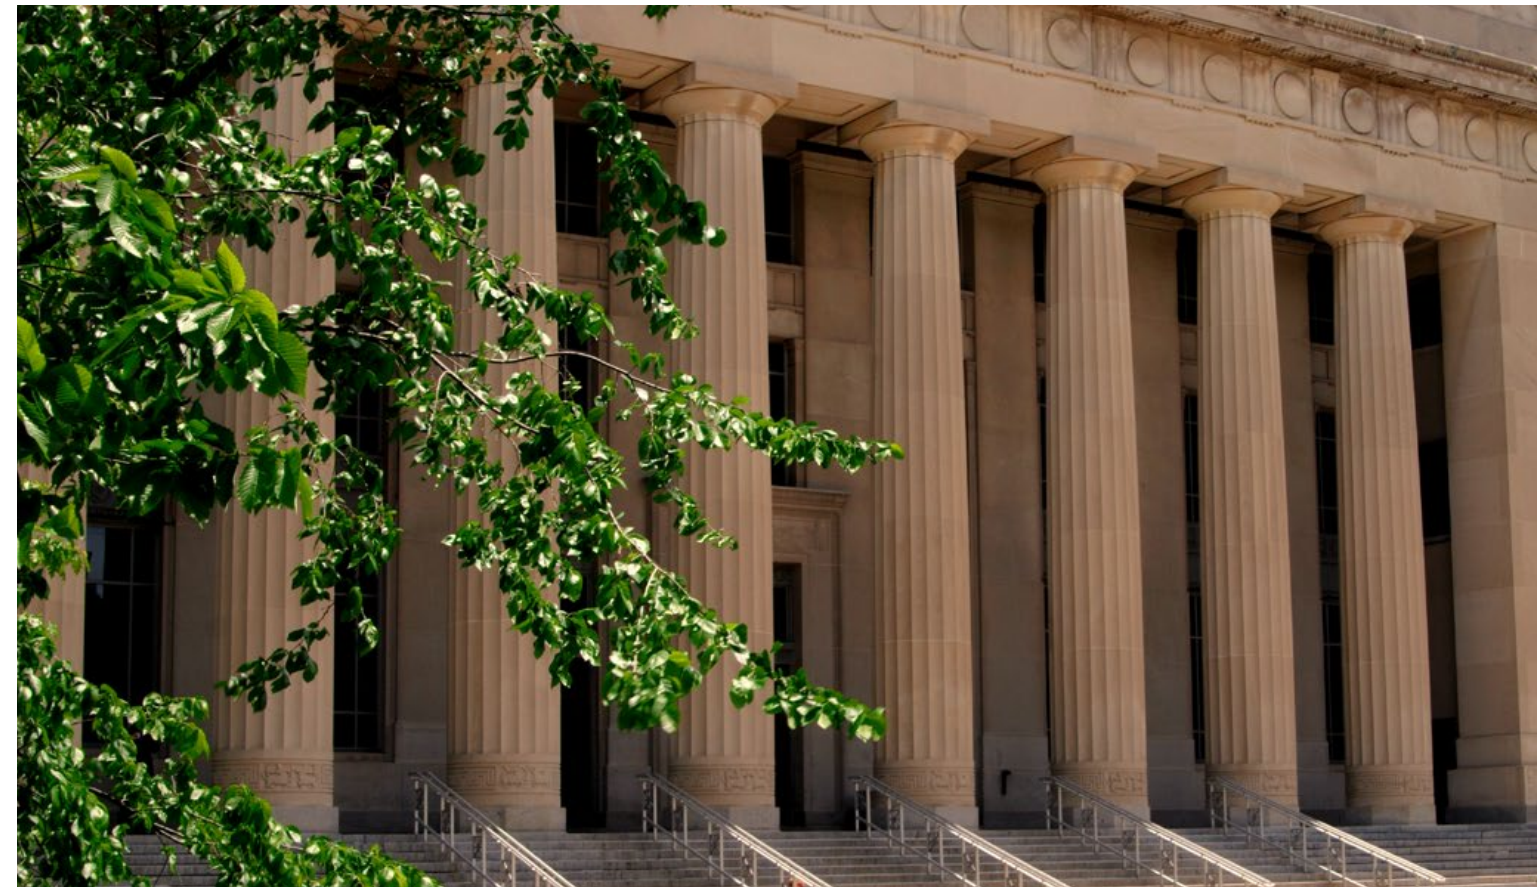

4.3

Photography — Environment

At Punjab Colleges, our setting is one of our greatest assets, so it's important that we show it consistently. When capturing architectural shots, always look for an interesting and engaging perspective — one that shows students interacting with each other. If a building is shown on its own, it should have a high level of visual interest.

NOTE:
The photography shown in this document is for illustration purposes and placement only.

4.4

The Bands

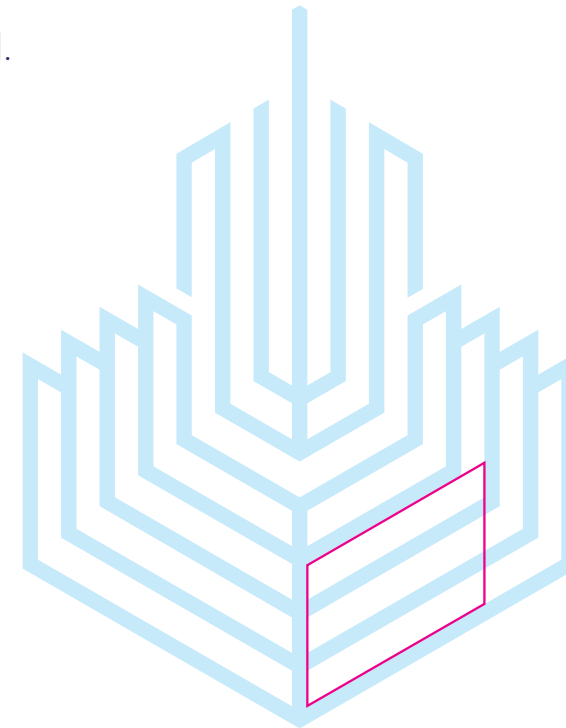

We have named our visual device 'The Bands'. These Bands are instantly recognizable and add character and dynamism to our communications. They are always played down to add visual interest and enhance our storytelling.

Creating The Bands

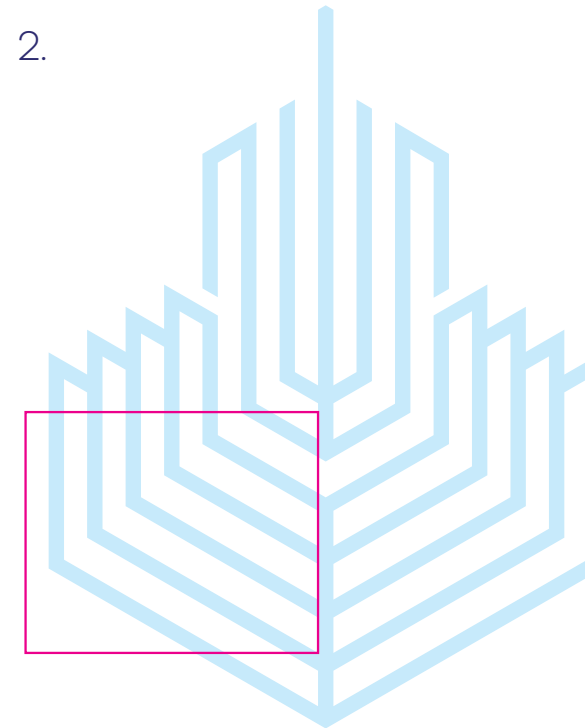

Our Bands are created using large crops of our logo.

Different Bands are created by taking different crops from the same element.

5.1

Display Profile

When the logo is used as a display profile in social media (Facebook, Instagram, Twitter, Snapchat, YouTube, etc.), it sits in the center of the display icon against a green background.

The same dp should be used across all platforms regardless of the shape of the display icon (squares, rounded squares, or circles).

Square Profile

Rounded Square Profile

Circular Profile

Display Picture

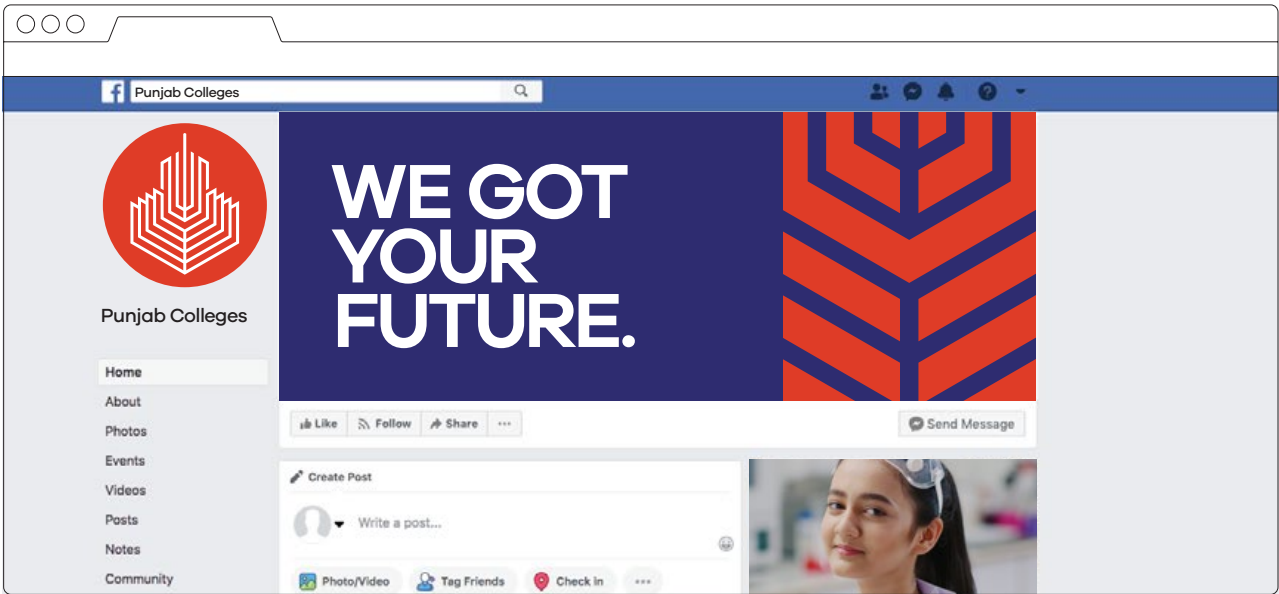

Facebook

On the timeline, the cover photo should carry a landscape image or campaign creative. To support the cover photo, a single line of copy may also be used.

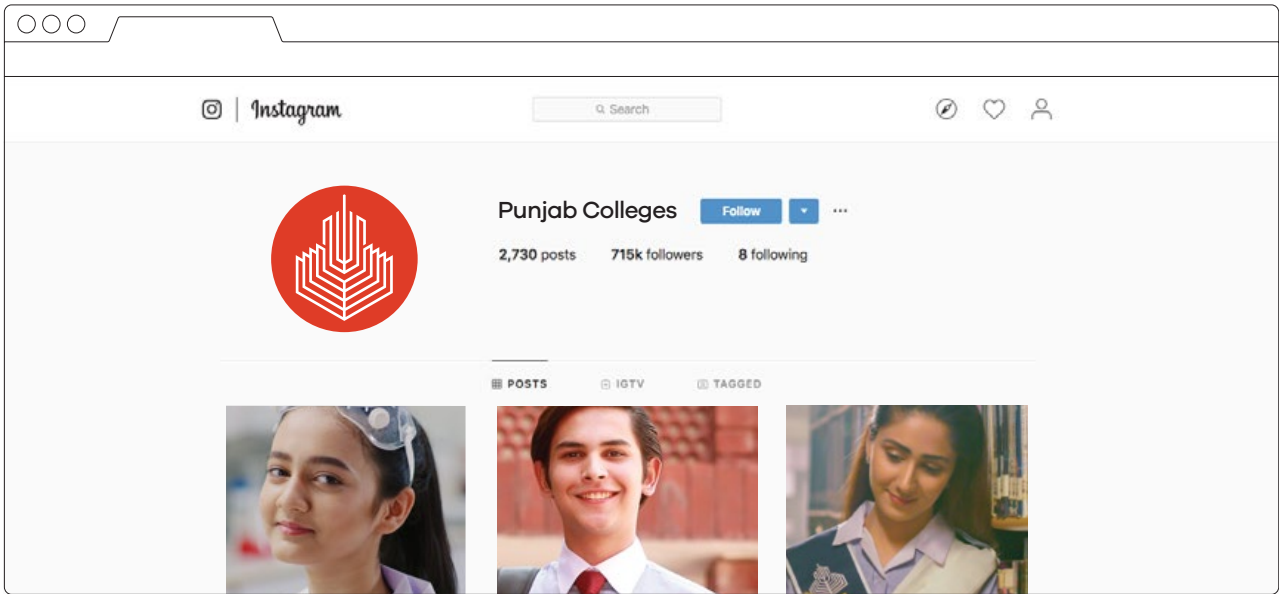

Other Platforms

Where appropriate, include campaign creative alongside the display icon.

Examples

Website

In our website, the logo appears in the upper left corner, while the social media handles and the contact details appear in the footer.

5.5

Presentation Template

It is important to project a consistent image of the brand through our internal and external communications.

The corporate presentation template should be used for all electronic presentations.

General Notes

The preferred presentation aspect ratio is 16:9 which accommodates most modern computer and presentation screen sizes.

A 4:3 template is also available for special circumstances.

Printing Tip

When printing 16:9, choose "Scale to fit paper" from print dialogue. This will ensure the whole slide is printed on your selected paper size.

General Notes

The preferred presentation aspect ratio is 16:9 which accommodates most modern computer and presentation screen sizes.

A 4:3 template is also available for special circumstances.

Printing Tip

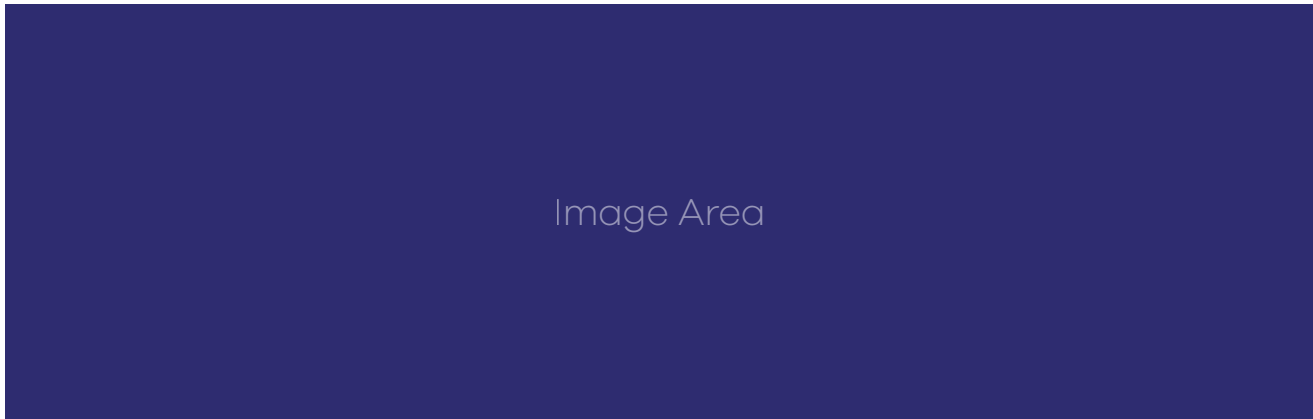

When printing 16:9, choose “Scale to fit paper” from print dialogue. This will ensure the whole slide is printed on your selected paper size.

Heading Specs:
Galano Grotesque R7
Write your subhead in Galano Grotesque R8.
This is in 48/58pts.

- > Write your bullet points in Blue.
- > Write your bullet points in Galano Grotesque R2 (45/65pts).
- > Leave enough 'breathing room' at the bottom.
- > Do not cram the text at the bottom of the slide.
- > When running out of room, continue to the next slide.
- > Use bullet pointers (arrow) in Red.

First line space.
Second line space.
Avoid bullet points where a large image is used.

Fineprint: Write your references, citations, footnotes, in Blue - Galano Grotesque R8 15/18pts.

5.5

Punjab Colleges does not accept any legal responsibility for the contents of this message thereof.

Clear Space

The amount of space around a logo within which no other graphic elements are allowed. This ensures legibility and protects the integrity of the logo.

CMYK

Often referred to as process colour or four colour, this is a subtractive colour model and printing process that uses cyan, magenta, yellow and black. CMYK is the preferred method for all of our print materials (with the exception of corporate stationery).

RGB

An additive colour model in which red, green and blue are combined to produce an array of colours. This model is used most often for on-screen applications, such as websites, presentations and video.

Reverse Variation

Logo variations that use white or light colours so that they can be read clearly on medium-to-dark backgrounds.

Opentype

A format for computer fonts that works consistently on both PCs and Macs.

Display Text

Any text that is more prominent than the body copy on the page, such as headlines, quotes and callouts.

Leading

In typography, this refers to the amount of vertical space added between lines of text.

Kerning

In typography, this refers to the spacing between letters or characters in a piece of text.

X-Height

In typography, this refers to the height of a typeface when the ascending and descending letters are not included. In most cases, the x-height is the same as the height of a lowercase letter x.
